

Dr. Vaibhav Tidke / Co-Founder & CEO / S4S Technologies

Dr. Vaibhav Tidke is the CEO and co-founder of S4S Technologies in India, boasts a Ph.D. in agri-food processing and technology commercialization training from IIM-A. He launched S4S as a full-stack food processing company, supplying food ingredients to FMCG and food service sectors. Their unique solar energy powered supply chain, managed by women entrepreneurs at village-level procurement and processing platforms, benefits farmers, entrepreneurs, and B2B customers.

A United Nations Environment Leadership Awardee, Vaibhav has patented innovations, pioneering farm gate food factories. His business philosophy emphasizes customer service, rapid scaling, societal and environmental impact, team building, and profitability. Under his leadership, S4S unites private, government, financing and agri value chain sectors, fostering entrepreneurship across value chains.
