

Samir is the Managing Partner at Peak Sustainability Ventures, one of India's first institutional sustainability VC funds. He is a veteran in the field of climate investing, having made numerous investments in the space, and achieving several exits. He has a deep knowledge of Peak's core areas - Energy, Food Systems, Water and Climate Tech, with specific expertise in sub-sectors including energy storage, hydrogen, waste-to-energy, water technology, and climate measurement, amongst other areas. Peak has since become known to bring strong value-add and a wealth of knowledge to its portfolio companies. Samir has 28+ years of financial markets experience, in global public and private markets, and has spent the last 7 years actively investing in sustainability.
