

Sunil Jain | CTO | Agrostar

Bio: An experienced technologist with a demonstrated history of designing and delivering complex products in the Internet industry. Passionate about building high-performing teams with agile and lean methods through open communication and strong customer focus to drive business outcomes.

Sunil is a major in Computer Science from IIT Kanpur, from where he graduated in 1999. He worked with technology startups and organizations building large enterprise applications before venturing into the Agri sector, more than a decade ago. He built the first decision support system for farmers, which was used by farmers in 17 states, in 8 languages. Sunil also co-founded a precision agriculture startup, which helped ~15% of the Pomegranate growers in the country, improve yield and quality of produce.
