Gujarat State - Best Performer Award in the States' Startup Ranking 2022

INSPIRING STARTUPS

for innovations and providing collaboration platform

Startups and innovation are vital drivers of economic growth. Beyond job creation, they introduce next-generation solutions that enhance efficiency, foster competition, and bring economic dynamism. Gujarat, with its deep-rooted entrepreneurial spirit, has emerged as a key player in the national startup ecosystem. The incentives provided under the Gujarat Industrial Policy 2015 have played a crucial role in building a strong network of nodal institutions, enabling startups to scale their operations both nationally and internationally. The Gujarat Industrial Policy 2020 further strengthens this foundation by promoting research & development, innovation, and entrepreneurship. To support startups at every stage of their journey, a new scheme has been introduced, offering comprehensive assistance across the startup lifecycle.

Startup Ecosystem of Gujarat – An Overview

State Startup Rankings

'Best Performer' –in 2018, 2019, 2020-21 and 2022 by DPIIT, Govt. of India.

Startup Policies

Gujarat Industrial Policy 2020 by Industries Department
IT/ ITeS Policy 2022 (for Deep Tech Startups) by Department of Science & Technology
Student Startup Innovation Policy 2022 (SSIP) 2.0 by Education Department

Number of Incubators

50+ Nodal Institutes (Incubators) under Industrial Policy

Venture Fund

Establishment of Gujarat Young Entrepreneurs Venture Fund -**INR 1000 Cr**

13500+ DPIIT Recognized Startups

All districts of Gujarat - At least one DPIIT recognized Startup
Diversity of Sectors - Top Sectors: Healthcare & Lifesciences, IT Services, Agriculture, etc.

Conducive Environment

Startup Gujarat provides a nurturing environment to support startups at every stage of their journey. From funding and mentorship to access to national and international markets, Gujarat offers unparalleled resources to help you scale your business. With a strong local manufacturing ecosystem, government incentives, and capacity-building initiatives, Gujarat is the perfect place to bring your innovative ideas to life.

- Funding Support & Investor Connect
- Showcasing innovations to wide market
- Capacity building programs for all stakeholders
- Public procurement exemptions/relaxations
- Support from strong local manufacturing ecosystem
- Incubation and Mentorship
- National and International Collaboration

PRIME - PROMOTION AND INCUBATION OF MARKET-DRIVEN ENTERPRISES

Launched in 2019 by the Government of Meghalaya, PRIME is committed to empowering entrepreneurs with incubation, mentorship, training, funding, and networking opportunities. We aim to nurture sustainable businesses that spark innovation and drive Meghalaya's growth.

HERE IS WHAT PRIME HAS TO OFFER:

1

Various Entrepreneurship & Technical Trainings, Exposure Visits

In collaboration with other government departments, provides access to various entrepreneurship-related services such as training, market connections, and buyer-seller meets.

2

Incubation for revenue stage entrepreneurs

The flagship initiative behind PRIME includes the Chief Minister's E-Championship Challenge and the PRIME Incubation Program, which nurture entrepreneurs at different stages.

3

Funding & DPR making support

PRIME offers four dedicated funding options for entrepreneurs in Meghalaya, catering to both startups and nano-entrepreneurs with the potential to scale up and generate jobs.

4

CM Elevate

A flagship program supporting aspiring entrepreneurs in various sectors through financial assistance, including subsidies and easy access to loans, CM Elevate aims to create jobs, boost local businesses, and drive economic growth

5

Partnerships - Market, Funding, Technology and Legal Linkages

By integrating Market Connect, Technology Connect, Financial Connect, and Mentor Pool, PRIME bridges the gap between startups and the support systems they need, fostering innovation, scalability, and market readiness.

6

Free office & co-working space

The two dedicated PRIME Startup Hubs in JN Stadium, Shillong and Food Crafts Institute (FCI), Tura are coworking spaces, where startup entrepreneurs can work on their ideas and businesses.

7

PRIME Rural

Dedicated to fostering innovation and entrepreneurship in the state, extending incubation support to every village, and uncovering hidden entrepreneurial talents at the grassroots level.

Oh! Nuts – Revolutionizing Healthy Snacking The desire for a healthier yet delicious snacking option led two friends to create something truly unique—Oh! Nuts. More than just a brand, it represents a shift in the snacking industry, offering a perfect balance of taste and nutrition. What started as a simple yet innovative idea—crafting chips directly from real nuts—has grown into a movement redefining the way people snack. Oh! Nuts delivers a guilt-free indulgence with non-fried, gluten-free, and protein-rich chips that contain 70% less oil than traditional snacks and are completely free from preservatives. Each pack is designed to provide an optimal daily intake of nuts, making every bite both enjoyable and nutritionally fulfilling. With Oh! Nuts, snacking is no longer a compromise but a delightful and healthy experience.

Profile:

Fake Invoice Tracker (FIT) is an innovative solution designed to combat the growing menace of fake GST invoices in India. The system integrates a device with an e-waybill and e-invoice portal, ensuring real-time vehicle location tracking, validation of loading and unloading points, and seamless verification of goods movement. The Problem India faces a significant challenge with fake GST invoices, which are used for tax evasion, input tax credit (ITC) fraud, and money laundering. Fraudulent entities generate invoices without actual movement of goods, leading to substantial revenue losses. • ₹3 Lakh Crore: Estimated annual revenue loss due to fake invoices. • 12% of GST Collections: Impacted by fraudulent activities. • 50,000+ Cases Annually: Detected by GST authorities, with many more undetected.

Profile:

Aadvik Foods and Products Pvt. Ltd. is among the world’s leading global brands of Camel & Goat Milk and their products, both domestically and internationally. Since its inception in 2015, Aadvik has led the way in introducing Camel Milk as a superfood with superior health benefits. The company offers over 90 SKUs, including Camel, Goat, Donkey and Cow Milk Products. It has three retail brands namely “Aadvik” and “Hye Foods” & “Hye Pets”. The idea for Aadvik Foods was born out of concern for the declining camel population in India. Founder Hitesh Rathi who comes from Rajasthan saw an opportunity to create a sustainable market for camel milk, benefiting local herders and supporting efforts to increase the camel population. Co-founder Shrey Kumar joined later, sharing the vision of saving camels & promoting healthy lifestyle.

ACRANNOLIFE GENOMICS PVT. LTD.

Contact	**:**	Mr. Ishant Jaipuria
Designation	**:**	Senior Marketing Manager
E-mail	**:**	ishant.j@acrannolife.com
Website	**:**	https://acrannolife.com/
Sector	**:**	BioTech & HealthTech
Address	**:**	1st Floor, Block-III, Khivraj Complex,, Chennai, Tamil Nadu, India 600035

Profile:

Established in 2014, Acrannolife Genomics is at the forefront of transforming chronic and infectious disease care through innovation. With a mission to positively impact a billion lives, the company pioneers cutting-edge non-invasive diagnostic solutions, leveraging cfDNA and LAMP technologies protected by global patents. Having benefited over 150,000 patients, Acrannolife Genomics is revolutionizing early detection and monitoring of diseases through its innovative products - Trunome GrafAssure, Coviqwik and TBFYND. Backed by an esteemed leadership team, world-renowned medical advisors, and rigorous scientific research, the company has earned prestigious accolades, including recognition from the Hon’ble President of India and top honors at global medical conferences.

ACUTRO TECHNOLOGIES PVT LTD

Contact	**:**	Mr. Krishnanunni J S
Designation	**:**	CEO Acutro Technologies
E-mail	**:**	krishnanunnijs365@gmail.com
Website	**:**	https://acutrotech.com
Sector	**:**	AI, DeepTech & Cybersecurity
Address	**:**	TC 25/2168-4, Ayurveda College, Thiruvananthapuram,, Thiruvananthapuram, Kerala, India 695001

Profile:

Acutro Technologies' journey and accomplishments since its inception in December 2020. Growing from a team of 3 members to reaching new heights in research and development within a short period is certainly commendable. Receiving seed funding for the unique project ICORE and successfully completing product development showcases the dedication and innovation of your team. The fact that you've presented the project to various clients globally indicates a promising future for your products or services on an international scale. Obtaining an import-export license and being selected under the Special Economic Zone (SEZ) by the Government of India is a significant milestone. This recognition not only highlights the viability of your project but also provides various advantages for expansion and growth.

Profile:

Global supply chains are losing trust. Counterfeiting, pilferage, and inventory issues are costing brands credibility and consumer confidence. Every year, over $3 trillion worth of counterfeit goods flood the market, worsening these challenges. Founded in 2020, Acviss is on a mission to restore trust through cutting-edge brand protection and traceability solutions. Trusted by 80+ brands worldwide, Acviss safeguards authenticity across digital and physical markets. With patented AI- and blockchain-powered technology, Acviss secures over 2 billion products, ensuring they remain tamper-proof and non-cloneable. From supply chain security to digital counterfeit monitoring, Acviss's multi-product suite covers every aspect of brand protection and track-and-trace.

ADHIYAM PVT LTD

Contact	:	Mrs. Ketki Agarwal
Designation	:	Founder & CEO
E-mail	:	ketki@ldexplained.org
Website	:	https://www.ldexplained.org/
Sector	:	BioTech & HealthTech
Address	:	S-260, Ground Floor, Panchsheel Park, New Delhi, Delhi, India 110017

Profile:

Adhiyam Pvt. Ltd. is a parent-founded social impact enterprise dedicated to supporting families of neurodiverse children through a continuum of awareness, access, and action. Our integrated model offers a holistic solution to the fragmented ecosystem currently faced by families navigating learning and developmental challenges. We operate through three interlinked platforms: LDExplained.org – A multilingual, evidence-based information platform that provides culturally relevant, expert-reviewed resources in six Indian languages. It is designed to raise awareness among parents, educators, and caregivers about neurodevelopmental conditions such as ADHD, autism, learning disabilities, and more. This platform is entirely non-commercial and serves as the first point of contact for many families. LDExplained.

ADIABATIC TECHNOLOGIES PRIVATE LIMITED

Contact	**:**	Mr. Darshan Meher
Designation	**:**	Darshan Meher
E-mail	**:**	darshanmeher2000@gmail.com
Website	**:**	https://adiabatic.co.in
Sector	**:**	Climate Tech
Address	**:**	L-78, MIDC, Ahmednagar, Maharashtra, India 414111

Profile:

Adiabatic is a full stack battery Tech company with focus on Circular Economy for Lithium ion Battery packs in India. Problem: Over 99% of the market relies on cheap but inefficient lead-acid batteries, which are heavy, short-lived, and environmentally harmful. Lithium-ion batteries are typically too expensive for small-scale farmers. Solution: Through advanced refurbishment techniques, FarmForcae repurposes used EV batteries, making high-performance lithium-ion batteries cheaper than lead-acid. This promotes a circular economy, reduces e-waste, and eliminates the need for carbon-intensive mining. Impact: Our innovation makes lightweight, long-lasting lithium batteries affordable, saving costs, improving farmer health, and protecting the environment through 3R principles—Reduce, Reuse, Recycle.

AI HEALTH HIGHWAY INDIA PVT LTD

Contact	:	Mr. Ashwin Chandrasekaran
Designation	:	Co-Founder & Director
E-mail	:	pallavi.n@aisteth.com
Website	:	https://aisteth.com/
Sector	:	AI, DeepTech & Cybersecurity
Address	:	DSI Innovation campus, Block A, 2nd Floor, Gharebhavipalya, Hongasandra village, Hosur Road, Bengaluru, Karnataka, India 560068

Profile:

Ai Health Highway is an Ai-first company focused on making the screening of chronic disease cost effective at primary care clinics - the first point of contact for any patient. Each year, 43 million people die of Noncommunicable diseases (NCDs), equivalent to 71% of all deaths globally. Our goal is to reduce 30% of these premature deaths due to NCDs by 2030 and work towards early detection and prediction of Heart/Lung Disorders. AiSteth (our Ai-enabled smart stethoscope) has the potential to screen, detect and predict heart and lung disorders using state-of-the-art signal processing and ML capabilities.

AI INNOVATORS LAB

Contact	:	Dr. Nadine Sangster
Designation	:	Dr Nadine Sangster
E-mail	:	nadine.sangster@utt.edu.tt

Profile:

The AI Innovators Lab is set up to foster the promotion of AI within Trinidad and Tobago and the Caribbean. We will offer customised AI design services to SMEs as well as AI training.

AI.HYR (PROVIDENTIA LABS PVT. LTD.)

Contact	:	Ms. Nishtha Rohatgi
Designation	:	Nishtha Rohatgi
E-mail	:	nishtha@aihyr.com
Website	:	https://aihyr.com
Sector	:	AI, Deeptech & Cybersecurity
Address	:	Hyderabad, Hyderabad, Telangana, India 500081

Profile:

AI.HYR is an end-to-end recruiting platform that assists companies in substantially reducing hiring time and cost. Our platform helps companies write job descriptions, shortlist resumes, build custom interviews, and conduct hundreds of async interviews using AI bots. The platform categorizes candidates as "Highly Recommended," "Recommended," and "Not Recommended." It enables companies to invite "Highly Recommended" candidates for the second round of interviews, saving the hiring team time. Some key features and benefits are - *Instantly stack ranks the resumes* - Identification of best resumes with custom criteria. *Multilingual interviews* - The platform conducts multilingual interviews, including Arabic and Spanish, and is able to accommodate any language. *Enable candidates* - On-demand async interviews anytime & anywhere.

AIMSWASTHYA

Contact	**:**	Mr. Mohak Biala
Designation	**:**	Co-Founder
E-mail	**:**	mohak@aimswasthya.com
Website	**:**	https://aimswasthya.com
Sector	**:**	BioTech & HealthTech
Address	**:**	1&2 CSC-2 , B-Block Surajmal Vihar, East Delhi 110092, Delhi, Delhi, India 110092

Profile:

AIMSwasthya is an AI-powered healthcare platform designed to tackle the critical issue of delayed diagnosis in Tier 2 and Tier 3 India, where people often consult general physicians due to their larger availability, unknowingly delaying the intervention of the right specialist. This delay leads to preventable health complications, sometimes turning minor symptoms into serious conditions like heart disease, diabetes, and chronic illnesses. In these regions, low health literacy further compounds the problem—many people fail to recognize the importance of consulting a specialist doctor at the right time. Moreover, the language barrier is a major obstaclei, making it difficult to communicate symptoms accurately and understand medical advice.

Profile:

Eemu Masale Live Chakki: Revolutionizing Freshly Ground Spices & More Eemu Masale Live Chakki is an innovative retail outlet transforming the way consumers experience freshly ground spices, coffee, oils, and flour. By combining the authenticity of traditional grinding techniques with modern efficiency like ordering via Mobile App and 10-Min delivery, we address critical issues in the food industry, such as adulteration, preservatives, and trust deficits. Problem Statement: The market is flooded with mass-produced, pre-ground spices and food products that often contain preservatives, artificial coloring, and adulterants, compromising both health and taste. Consumers today lack transparency about the quality and freshness of these products.

The Indian Film School (TIFS) is a dedicated online portal setup for skilling individuals for the Indian entertainment industry. This is made available to interested amateurs or professionals inside and outside of the industry and anyone who may want to learn the basics of filmmaking. Being one of the most looked upon industries, thousands enter each year with the hope of finding a foot. But due to the lack of film schools, high fees and entrance procedures, only a handful can make it. The rest go through and tedious process of first finding the right project, getting accepted and spending years learning the ropes. And this is exactly where we come in. TIFS offers an indebt basics course, designed and curated by the best in the industry and at literally 1/10th the cost of the available online courses.

What's the true cost of plastic? It's more than just the price at checkout—it's the lasting damage to our oceans, wildlife, and future generations. Plastic lingers for centuries, leaving a legacy of pollution we can't ignore. At Amwoodo, we believe sustainability shouldn't come at a high cost. That's why we offer eco-friendly bamboo products without the hefty price tag, making sustainability accessible for everyone. If not now, when? If not bamboo, then what? The planet's calling for change—let's make the switch and kickstart the eco-revolution today. Amwoodo, meaning "I am Sustainable" in Mauritian, is committed to leading the way in bamboo-first products, empowering individuals and communities to make eco-conscious choices for a better tomorrow.

Website	:	https://www.anantkottonsculptures.com/
Sector	:	Climate Tech
Address	:	1/5 Shri Chaitanya Nagar Gangapur Road, Nashik, Maharashtra, India 422013

Profile:

Anant Kotton Sculptures LLP is a pioneering startup combining art, innovation, and sustainability, founded by acclaimed inventor and artist Anant Khairnar, the world's first cotton sculptor. With over 35 years of experience and a proprietary process, the company transforms natural cotton into biodegradable, moldable, and unbreakable sculptures. It is India's first company to offer cotton-based religious idols, home decor pieces, and personalized gifting sculptures at scale. The firm's flagship creation, Cotton Ganesha, offers an eco-conscious alternative to traditional Plaster of Paris (PoP) and clay idols. These cotton idols are lightweight, unbreakable, and water-soluble, dissolving without harming the environment.

Website	**:**	https://www.angirusind.com/
Sector	**:**	Climate Tech
Address	**:**	98, Ratneshwar colony,, Udaipur, Rajasthan, India 313011

Profile:

Angirus is a circular economy startup that makes sustainable dampproof bricks and blocks using 100% recycled waste materials. Our flagship product, “Wricks," is 40% stronger and 90% waterproof, solving the issue of water leakage and reducing plastering costs. These bricks have been tested by government laboratories and validated through various projects over the past two years. With every Sqft, we recycle more than 15 kg of solid waste, reducing 75% of carbon emissions. Our patented technology is cost- and energy-efficient and fast, requiring only one day of processing, unlike other bricks requiring 14 days. The whole setup can be installed in a 90% less area and operates at 30% less energy consumption compared to conventional systems, saving capital and operational costs.

Designation	:	CoFounder CEO
E-mail	:	arihafoods@gmail.com
Website	:	Https://www.arihafoods.in
Sector	:	D2C
Address	:	3C Bijayati Towers 14/15 Halls Road, Chennai, Tamil Nadu, India 600010

Profile:

Arihafoods has innovated Low Glycemic Index Breads fortified with Dietary and Prebiotic Fiber which have a shelf life of 30 days. These Low GI Breads are 100g loaf which provide 200 kcal only. This helps regulate the blood glucose. The added dietary and Prebiotic Fiber help in improving the gut health. Due to these, the consumer does not face hunger cravings upto four hours after consumption. The Low GI Breads are meal substitute and since they provide only 200 kcal instead of an average of 700 kcal of a meal, this calorie deficit diet helps the consumer reduce upto 3 kgs a month if they consume one loaf as a meal substitute everyday for a month.

Website	:	www.https://bharathelix.com
Sector	:	BioTech & HealthTech
Address	:	3rd Floor, FITT, R&I Park, IIT Delhi, New Delhi, Delhi, India 110016

Profile:

"Diseases like Tuberculosis (TB), Human Papillomavirus (HPV), and various infectious diseases pose significant challenges in diagnosis and treatment. Delayed diagnosis can lead to disease progression, increased transmission rates, and adverse health outcomes." Traditional diagnostic techniques for infectious diseases often suffer from extended turnaround times, limited accuracy, and accessibility issues, resulting in delayed treatment and compromised patient outcomes. Real-time polymerase chain reaction (RTPCR) has emerged as a potent diagnostic tool for infectious diseases due to its sensitivity and specificity. Yet, many RTPCR systems are encumbered by the need for manual intervention and numerous instruments, restricting their adoption and accessibility, especially in resource-constrained environments.

Designation	:	Founder & CEO
E-mail	:	pravin@bharatgo.com
Website	:	https://www.bharatgo.com/
Sector	:	D2C
Address	:	WEST ONE F.NO. A- 704, S.NO. 36/1, 36/2, Pune, Maharashtra, India 411057

Profile:

BharatGo is a platform where anyone can create their own e-commerce website and start selling online in just 2 minutes. We are an e-commerce enablers (SaaS no code platform) and enable small businesses, local store owners and entrepreneurs to sell online on their own website and also on ONDC (Open Network for Digital Commerce). By using our extensive retail experience and cutting edge technology we are bridging the gap between aspirations and affordability for millions of sellers across India. Selling online remains an aspiration for many businesses in India. Current eCommerce enablement solutions are often too technical, expensive, and challenging to use. Additionally, these solutions fail to generate demand, which discourages businesses from establishing their own online stores.

Cautio, is an AI-powered dash-cam (video telematics) startup offering comprehensive safety solutions for fleets across various industries. Backed by Antler, 8i Ventures, and AU Small Finance Bank, Cautio has enabled over 1.2 cr+ safe kilometers, and protected over 3+ lakh trips. Cautio’s real-time insights into driver behavior, vehicle safety, and road conditions allow fleet operators and driver partners to optimize safety, reduce risks, and ensure compliance.

CAWP PRODUCTS PVT LTD

Contact	:	Mr. Vansh Jain
Designation	:	Co-Founder
E-mail	:	vansh@aevis.io
Website	:	https://aevis.io
Sector	:	AI, DeepTech & Cybersecurity
Address	:	643, Jaipur, Rajasthan, India 302003

Profile:

Aevis provides Computer Using Agents (CUAs) embedded within SaaS products via a no-code script tag. Unlike chatbots, our AI learns the application's interface end-to-end and directly operates it (clicking, typing, navigating) based on user conversational requests. This solves critical B2B SaaS challenges: crippling onboarding friction, low feature adoption (often <60%), and overwhelming L1/L2 support ticket volume, significantly reducing time-to-value for users.

Address	:	Row House No. 13, Tulshidham Phase 3, Sutmil Road, Latur, Latur, Maharashtra, India, 413512, Latur, Maharashtra, India 413512

Profile:

CEIR Mobility is an Indian startup pioneering sustainable motor solutions for large-scale ventilation and climate control. Centered on HVLS (High Volume Low Speed) fans and advanced HVAC motors, their patented axial flux technology delivers high torque density, reduced weight, and exceptional energy efficiency—helping to minimize power use in large industrial, commercial, or public facilities. By cutting operational costs and optimizing airflow, CEIR Mobility's solutions underscore a commitment to environmental responsibility, ensuring more sustainable and cost-effective cooling and ventilation systems.

CENTER FOR NEUROTECHNOLOGY OF SLEEP AND WAKEFULNESS (DEEP)

Contact	:	Ms. Iuliia Bushueva
Designation	:	International project manager
E-mail	:	bushueva_yb@mail.ru
Website	:	https://deep.online
Sector	:	BioTech & HealthTech
Address	:	Moscow , Bolshoi Boulevard 42, Moscow, Russian Federation, Russianfederation 121205

Profile:

The DEEP Sleep Cube is an innovative gadget for healthy sleep, which will allow you to maintain a level of active quality of life. The cube generates electromagnetic field pulses at frequencies from 1 to 40 Hz and with an intensity of less than 20 μTl. Pulses in the range of 1-20 Hz stimulate deep sleep of a person, and in the range of 20-40 Hz make it superficial, so waking up becomes more comfortable. The effective radius of the device is up to 2 metres from the sleeper, which is suitable for a double bed. The device works from any USB power source and all you need to do is plug the cube into a socket, start the sleep programme before going to bed. An LED ring on the cube will inform you when the device is switched on and when the sleep programme is active. In addition, this year DEEP is implementing co-operation with hotels in Russia.

At The Chayi, we are redefining the tea experience by blending the rich heritage of Assam’s finest teas with modern, health-focused innovations. Our mission is to create natural, functional beverages that not only taste great but also promote well-being and sustainability. Our Story: The Chayi was born out of a passion for authentic, high-quality tea and a vision to uplift small-scale tea growers of Assam. While India is known for its tea culture, the ready-to-drink tea market remains underdeveloped, and most available options are loaded with artificial additives and excess sugar. We recognized this gap and set out to create a range of beverages that are refreshing, nutritious, and made with clean-label ingredients. Our Products We offer a diverse portfolio of health-centric tea-based beverages, including: 1.

Designation	:	Co-founder
E-mail	:	abhisek@clinicalaiassistance.com
Website	:	https://clinicalaiassistance.com/
Sector	:	BioTech & HealthTech
Address	:	Model Town, Gurugram, Haryana, India 122001

Profile:

We empower both healthcare providers and seekers through various AI technologies. We partnered with several healthcare organizations and doctors, served multiple hospitals and dozens of physicians, and reached over 6,500 end users through our products last quarter. Our key product, Dr. Aayush, serves as the initial point of contact for patients in hospitals, particularly in OPD wards. It conducts an initial assessment, compiles a concise report, sends it to the doctor, and saves upto 30% of doctors' time. We also developed ManoWealth and AayushVaani. ManoWealth is a one-stop platform for university students' mental health and well-being. AayushVaani is an AI-powered voice assistant designed for seamless medical documentation, enabling doctors to generate accurate reports effortlessly from conversations.

Address	:	612B, 6th Floor, Iris Tech Park Sector-48, Sohna Road, Gurgaon, Haryana, India 122018

Profile:

Empowering First-Generation Founders and Professionals CorpReady Academy Pvt. Ltd. was founded with the mission of bridging the gap between academic knowledge and the ever-evolving corporate landscape. We focus on empowering first-generation founders and professionals to equip them with the necessary skills and tools to thrive in the modern workforce. At the core of our efforts is the belief that anyone, regardless of background, can succeed when provided with the right resources, mentorship, and learning environment. Empowering First-Generation Founders First-generation founders often face unique challenges—lacking family support or access to established networks. At CorpReady Academy, we aim to change that narrative.

CORTEX N GREY TECHNOLOGIES

Contact	:	Mr. Pramod S
Designation	:	Pramod S
E-mail	:	pramod.s@cfhe.iith.ac.in
Website	:	https://cortexngrey.com/
Sector	:	BioTech & HealthTech
Address	:	Room No:401,CfHE,TIP Building,IIT-Hyderabad, Sangareddy, Telangana, India 502285

Profile:

About Us: Cortex N Grey Technologies Cortex N Grey Technologies is a purpose-driven med-tech startup on a mission to reshape early childhood developmental care by harnessing the power of AI, neuroscience, and play. We are focused on building innovative, culturally rooted, and scalable tools for early screening of Neurodevelopmental Disorders (NDDs), including Autism, ADHD, Learning Disabilities (LD), and Intellectual Disabilities (ID) — all through natural child interactions and sensor-integrated play. Our journey began with a powerful realization: in India, over 99% of children with developmental delays are screened too late, often after the critical brain development period between ages 2 and 3. This delay leads to missed opportunities for early intervention, stigmatization, and long-term educational and social challenges.

COSMA HEALTH (FEMACARE PRIVATE LIMITED)

Contact	:	Ms. Charu Sharma
Designation	:	CEO & Founder
E-mail	:	charu@femacare.in

E-mail	:	samyak.jain@crazycoffeeindia.com
Website	:	https://www.crazycoffeeindia.com/
Sector	:	Other
Address	:	2nd floor, 306/9, Shanti Path, Jaipur, Rajasthan, India 302004

Profile:

In 2018, two brothers, Rishabh Sogani and Samyak Jain, took steps to transform the Indian coffee culture in the busy city of Jaipur. What began as a single cafe has expanded into a successful national network with over 20 Outlets. Our goal is to create a strong Indian community of coffee lovers and to share the joy of coffee. Our journey started with a love of coffee and an idea to offer Jaipur's coffee lovers an exceptional coffee experience. We aimed to provide a space where people could come together, relax, and socialise rather than just have a cup of coffee. Our first cafe immediately gained popularity because of its welcoming ambiance and excellent coffee. Motivated by the favorable feedback we received from our customers, we grew outside of Jaipur.

Sector	:	D2C
Address	:	IX-6175, Partap Gali, Jain Mandir gali no. 1, Delhi, Delhi, India 110031

Profile:

Crease India is more than just a clothing label—it's a modern movement redefining Indian menswear for the conscious, confident man. Founded in 2023 by two friends and fashion professionals, Anand Nema and Udit Vij, Crease India was born out of a shared vision: to create timeless designer clothing that blends heritage with modernity, and quality with affordability. The journey began in 2012, when the founders met as students of Fashion Merchandising and Retail Management at FDDI. Over time, both pursued careers in fashion and e-commerce, gaining valuable experience across the industry. One entered his family's traditional clothing business; the other ventured into the digital world, freelancing in social media and e-commerce marketing.

Website	**:**	https://www.curexel.com
Sector	**:**	BioTech & HealthTech
Address	**:**	11/A, 5th main, 2nd cross, Pramoda Layout, Nayandahalli, bangalore south, Bengaluru - 39, Bengaluru, Karnataka, India 560039

Profile:

Injections are painful! Aren’t they? At Curexel, we are addressing a critical yet often overlooked challenge in healthcare—the pain and anxiety caused by injections. One in five people suffer from needle fear (trypanophobia), and in India alone, 1.5 billion painful pricks occur annually across chemotherapy, dialysis, blood collection, IV cannulation, and vaccination. This issue is deeply personal. My father, a cancer survivor, endured painful IV pricks during chemotherapy. My co-founder’s mother, currently undergoing treatment, winces in pain during blood withdrawals. A friend’s husband, on dialysis thrice a week, dreads IV cannulation. Even my young daughter fears injections.

Profile:

We reimagined the music industry. We found a really simple solution, one we can start small, like in our state Mizoram and other North East States, and then hopefully, the world. We are proud to introduce to you, Darbu Music and Audio App. For artists, Musicians, producers, and most importantly for the music fans. We'll explain it in 3 broad features: 1. Darbu Exclusive: We sell newly released songs for just 15 rupees. And the fans can pay way more than that to show their support. There is no cost for uploading the song. The artists get 90% of all the sales. 2. Darbu Store is like an online store in the app for artist merchandises, concert tickets and other artist related items for sale. We have an international shipping partner Shiprocket for all international shipping 3.

DETOXYFI TECHNOLOGIES PRIVATE LIMITED

Contact	:	Mr. Adityavardhan Kumar
Designation	:	Chief of Staff
E-mail	:	avk@detoxyfi.com
Website	:	https://www.detoxyfi.com/
Sector	:	Climate Tech
Address	:	B5/73. Safdurjung enclave, New Delhi, New Delhi, India 110029

Profile:

Detoxyfi is developing a patent-pending (PCT/US2022/076211) low-cost, sustainable and biodegradable filter with a short use life (1 week) which builds upon extensive research, stakeholder feedback, and filed validation at MIT over 10 years of research. This technology utilizes natural sap wood of conifers to filter water. The filters are the size of small candles (4*4*10 cm3) and fit in biodegradable plastic pouches. The filter weighs ~100 g, costs ~INR 50 and can provide ~100 L of water in 5-7 days. The product is completely natural and made of wood byproducts which makes it sustainable, biodegradable and social acceptance.

Profile:

DIATOMIC HEALTHCARE: The Global Pioneer in Oxygen Delivery Innovation Diatomic Healthcare Private Limited. It is an innovation-driv enterprise dedicated to solving one of the most fundamental and under-recognized global health challenges: oxygen deficiency. With its flagship invention Ox66®—the world's first solid, ingestible, and topical oxygen supplement—Diatomic is redefining how oxygen is delivered to the body and applied across industries. For billions worldwide, oxygen deficiency is an invisible crisis. Pollution, respiratory disorders, urban stress, sedentary habits, and chronic illnesses have created widespread, undiagnosed hypoxia at the cellular level. While oxygen remains the most essential molecule for life, traditional oxygen therapies are confined to clinical or emergency settings.

Address	:	356,Masakin-e-saifiya,(bijalpur) , Indore, Madhya Pradesh, India 452012

Profile:

Dinetimz is a tech-driven tiffin and mess aggregator platform designed to revolutionize how students and working professionals access affordable and flexible meal options. Unlike traditional mess services that lock users into a single vendor for an entire month, Dinetimz allows seamless vendor switching under a single subscription plan, ensuring variety, quality, and user satisfaction. By leveraging AI-powered insights, our platform connects users with trusted tiffin providers, mess owners, and home kitchens, giving vendors increased visibility, customer reach, and financial stability. Our long-term vision is to digitally transform the tiffin industry, expand across India’s student and professional hubs, and uplift small-scale food businesses. The Problem We Solve For Students & Working Professionals: 1.

Website	:	https://plutointero.com/
Sector	:	D2C
Address	:	ITS 1, Jaipur, Rajasthan, India 302022

Profile:

1) About Pluto Intero: Our Journey Towards Sustainable Innovation Pluto Intero was born out of a passion for sustainability, innovation, and design thinking. As a startup founded by graduates of NIFT Gandhinagar, we saw an urgent need to transform home decor into a more eco-conscious, tech-savvy, and user-friendly experience. Our journey has been anything but easy—countless failures, relentless product development, and an unwavering commitment to making sustainability stylish and accessible. 2) The Beginning: How We Got the Idea The idea for Pluto Intero emerged from a simple yet pressing realization—our homes are filled with products that contribute to environmental degradation, yet the market lacks aesthetic, durable, and smart alternatives made from recycled materials. We wanted to change that.

ECONSCIOUS® (ECODECO THE RECYCLE HOME PVT LTD)

Contact	:	Ms. Sonal Shukla
Designation	:	Co-founder, Director
E-mail	:	sonal.econscious@gmail.com
Website	:	https://www.econscious.co.in/
Sector	:	Climate Tech
Address	:	H no 1001, Nehru Enclave,, Delhi, Delhi, India 110036

Profile:

econscious® is a social impact startup based in Delhi, dedicated to addressing the plastic waste crisis through sustainable innovation and circular economy solutions. We specialize in collecting and recycling post-consumer plastic waste—primarily MLP, HDPE, and PP—and transforming it into high-quality products such as park benches, dustbins, planters, school furniture, changing rooms, and eco-friendly gifting items. Our mission is to create a cleaner, more conscious world by building a closed-loop system that involves awareness, collection, processing, and product manufacturing. What makes econscious® unique is our inclusive and impact-driven approach—we actively engage informal waste workers, promote source segregation at the community level, and work closely with NGOs, corporates, and civic bodies to ensure sustainable outcomes.

Profile:

In today's data-rich world, siloed information and fragmented systems hinder effective decision-making. This is where Efficieno's Automate and Decision Intelligence (DI) tools come in. These powerful solutions bridge the gap by streamlining data flow within business processes and providing relevant insights for each decision point. This holistic view empowers businesses to leverage advanced analytics and AI to uncover hidden patterns, predict future outcomes, and generate actionable insights. With Efficieno's tools, businesses can move beyond guesswork and gut feelings, making data-driven decisions that fuel growth, optimize operations, and give them a competitive edge. We unify data through seamless integrations and empower smarter choices with AI-powered decision intelligence, paving the way for business success.

EIGENLYTICS DATA SOLUTIONS PRIVATE LIMITED

Contact	:	Mr. Prashant Kumar
Designation	:	Founder & CEO
E-mail	:	prashant.kumar@eigenlytics.com
Website	:	HTTPS://EIGENLYTICS.COM
Sector	:	AI, DeepTech & Cybersecurity
Address	:	C-801, Persiana, Casa Rio, Palava City, Kalyan Shil Road, Thane, Maharashtra, India 421204

Profile:

Who we are? We are a Deeptech startup, setting up a new standards of Intelligent Document Processing using our SaaS offering 'DocEye' which recognises and extracts information, holistically analyses and takes appropriate call to action in order to automated document (digital & physical) driven business operations. Why now? Document data extraction technologies, which we technically call Optical Character Recognition (OCR), have traditionally been used to process structured documents. For unstructured and noisy documents, companies typically resort to manual data entry, which is costly, time consuming, error-prone and is susceptible to data security breach.

Profile:

A start-up working in the field of Hybrid Electric Vehicles in Automotive Sector, retrofitting eKit to convert conventional IC engine 2 wheelers into Hybrid Electric 2 wheelers. Petrol per year (40k) + Total Maintenance (20k) is Rs.60,000 . You are wasting money on Petrol and Maintenance of bike. We came up with the innovative idea of converting your existing scooter/ mopeds and bikes into Hybrid Electric Vehicles (HEV). After conversion your vehicle will run in Electric mode as well as in Petrol mode. As Petrol price, Air and Sound Pollution are rising so 90% vehicle should be run on Electric mode and 10% on Petrol mode that too only as an Emergency Backup. So that you wont stop in between because of Battery drain out and wait 4hr for charging the battery at the charging stations.

ELITECK HYDROGEN RESOURCES PRIVATE LIMITED

Contact	:	Mr. ABHISEK DEB
Designation	:	CO-FOUNDER
E-mail	:	equitymosl08@gmail.com
Website	:	https://www.eliteckhydrogen.com/
Sector	:	Climate Tech
Address	:	E-3,GROUND FLOOR, SRINAGAR MAIN ROAD, Kolkata, West Bengal, India 700094

Profile:

Make green hydrogen technology dependable, accessible, and affordable for all. We are aiming to become a leader in the field of green hydrogen in every aspect and want to make hydrogen an easily accessible product to each part of India in all the possible sectors like job creation, cooking or domestic fields, and health and wellness, as Hydrogen has the potential to revolutionize the energy landscape and transform our world. Its ability to generate clean power, transform renewable energy, and replace fossil fuels in various sectors positions it as a key player. We are planning to join hands with the government in achieving a sustainable future and work to contribute to the success of this initiative towards sustainable energy solutions for our country.

We are an end-to-end renewable energy platform providing tailored solutions for all your energy needs. Using our Solar Calculator, customers can calculate their solar requirements on our platform just by using their Electricity bill and instantly get multiple prices solving their initial queries. Our experts understand their exact needs by conducting site visits and detailed discussions. Then we help them to switch to Renewable Energy by getting multiple quotes from our vetted vendors at their fingertips, ensuring they make the best choice with confidence.

ENGINEER'S CRADLE

Contact	:	Mr. Shubham Bhoir
Designation	:	Founder, CEO
E-mail	:	shubham@engineerscradle.com
Website	:	https://info.engineerscradle.com/
Sector	:	D2C
Address	:	6th Floor, MIT TBI Pune, Pune, Maharashtra, India 411038

Profile:

As technology advances rapidly with innovations in AI, robotics, and other fields, the tech industry remains scattered and disconnected. Current platforms like LinkedIn and Twitter fail to cater to the specific needs of professionals and organizations, hindering their potential for growth. This fragmentation creates significant challenges in discovering and sharing relevant resources, networking effectively, and staying updated with industry trends. Engineer’s Cradle is bridging this gap by creating the world’s first organization-centric Sociotech ecosystem a unique blend of social and technology platforms (SaaS) to help organizations and professionals grow in their industry. The platform helps connect professionals, organizations, and resources in a structured and actionable way to create an impact on their business and career.

Profile:

The world is changing at a rapid pace. The jobs we are preparing our students for would not exist in 10 years. This begs the question of how can we prepare our students for the future? The only way to prepare our students for the future is to teach them transferable skills that can be applied in any domain, and makes them non replaceable by technology. At EntrePi, we develop 21st century skills in teenagers. Our curriculum incorporates game-based and micro-learning, that allows students to learn while having fun, at their own pace, and with peers. We follow the United Nations Development Program's framework for 21st Century Skills, and have launched 3 games till now. All 3 are physical games that give the students a hybrid learning experience.

ENVINOVA SMARTECH PRIVATE LIMITED

ESPOUSE CAPITAL PRIVATE LIMITED

Contact	:	Mr. Prasad Nediyakalayil
Designation	:	CFO
E-mail	:	prasad@esopdhan.com
Website	:	https://esoppdhan.com/
Sector	:	FinTech
Address	:	1602 Morya Grand, Opp. Infinity Mall, Off Veera Desai Ind Est Road, Mumbai, Maharashtra, India 400053

Profile:

Espouse Capital Pvt Ltd (brand name ESOPPDHAN), a registered NBFC engaged in providing loan to employees of matured starups to exercise ESOPs. At ESOPPDHAN, we are revolutionizing the way employees of unlisted companies unlock the true value of their Employee Stock Option Plans (ESOPs). Many employees hesitate to exercise their ESOPs due to the significant upfront financial burden, particularly the substantial tax obligation at the time of exercise. As a result, valuable stock options often remain unutilized, depriving employees of potential wealth creation opportunities. Our mission is to bridge this gap by offering a tailored ESOP funding solution that empowers employees to exercise their stock options without financial strain.

Profile:

eVerse.AI is a sustainability company for livestock and dairy sector. We look at sustainability as combination of Economic and Environment sustainability. Hence, we have solutions like ConnectedCow and GreenCow which caters to both because for our farmers sustainability starts when their stomachs are full. Monitor every cow on your dairy farm 24/7 with ConnectedCow solution. With our solution, you get unmatched accuracy to detect heat cycle and diseases of cows in real time. Our comprehensive platform also allows to you raise your income and productivity through features like feed management, milk yield and overall farm management.

EVOLVER AGRO

Contact	:	Mr. Imran Ali
Designation	:	Founder
E-mail	:	imran.ali.iifm@gmail.com
Website	:	https://www.indiamart.com/evolver-agro/
Sector	:	AgriTech
Address	:	12/3A Syed Nagar near Green Garden, Jhansi, Uttar Pradesh, India 284003

Profile:

The brand named “Turanta” which is a brain child of Evolver Agro, a revolutionary company aiming to bridge the gap between garlic farmers and global kitchens with the mission of empowering farmers by ensuring fair prices for their produce while providing consumers with high-quality, convenient garlic products. It proposes a comprehensive approach to address the challenges faced by both garlic farmers and consumers, offering a solution that benefits all stakeholders. Genesis-: Turanta recognizes the significant disparity between the value received by farmers and the demand for quality garlic products by consumers. On the supply side, small-scale garlic farmers in India, particularly in the state of Uttar Pradesh, face multiple challenges.

EVOXIA LABS INDIA PRIVATE LIMITED

Contact	:	Mr. Harsh Chordia
Designation	:	Director
E-mail	:	harsh@evoxialabs.com
Website	:	https://evoxialabs.com/
Sector	:	BioTech & HealthTech
Address	:	No 3 T V Basin Street, Sowcarpet, Chennai, Tamil Nadu, India 600001

Profile:

Evoxia Labs is pioneering home-compostable bioplastics made from agricultural waste, providing a cost-effective alternative to petroleum-based plastics. Unlike existing bioplastics (PLA/PHA) that require industrial composting, our material naturally decomposes within 180 days in any environment, making it truly sustainable. Our immediate focus is on manufacturing rigid containers using our proprietary bioplastic granules. Rigid packaging (such as food containers, cosmetic jars, and durable consumer goods packaging) has no viable bioplastic alternatives today, creating a massive market opportunity. In the long term, once market adoption grows, we will transition into a materials company, supplying our bioplastic granules to large-scale manufacturers—ensuring mass adoption and impact at scale.

E-mail	:	ajay@feryrides.com
Website	:	https://feryrides.co.in/
Sector	:	Mobility
Address	:	2nd Floor, Gateway B Building, National Highway-08, 67th Milestone, Gurugram, Haryana, India, India 122413

Profile:

Fery is India’s first women-centric, electric two-wheeler ride-hailing platform — built to provide safe, reliable, and eco-friendly mobility for women, by women. Our mission is rooted in solving two pressing urban challenges: women’s safety in public transport and the lack of economic opportunities for women in the mobility sector. At Fery, we are not just another ride-hailing app. We are a social innovation, blending gender empowerment, clean energy, and technology to transform how women travel and work in Indian cities. The Problem We’re Solving Urban India has a mobility crisis — especially for women. Public transport is overcrowded, unsafe, and largely male-dominated. Women are forced to compromise on dignity and safety just to get from one place to another.

Businesses with high revenue may still be unprofitable and have cash flow issues due to payment gap of invoice remittance. So, cash flow are essential for a company's sustainability and success. The average MSME invoice remittance period is above 60 days. Most MSME businesses are run on loans. FundDo fulfills the short-term credit gap in invoice remittance by providing an unsecured working capital credit line to MSMEs and their bottom lines. In today's digital world, access to capital is essential for the growth of MSMEs. However, MSME businesses face challenges due to inefficient and time-consuming processes, as well as significant information asymmetry between lenders and borrowers. FundDo is an integrated financial technology platform that addresses on-time payment solutions, working capital, and financial support to MSMEs.

Website	:	https://furrmate.com/
Sector	:	D2C
Address	:	A-1/2, First Floor, Swami Narayan Marg, New Delhi, Delhi, India 110052

Profile:

FurrMate is India’s first vet-approved, plant-based pet food brand, providing 100% nutritionally complete meals for dogs. Backed by PETA approval and formulated to meet the highest standards, our recipes ensure pets thrive while staying cruelty-free. Designed for health-conscious pet parents, FurrMate not only nourishes dogs but also reduces environmental impact. As the demand for vegan pet food rises, we are pioneering a sustainable future in pet nutrition—one bowl at a time.

FUSELAGE INNOVATIONS PRIVATE LIMITED

Contact	:	Mr. Devika Chandrasekharan
Designation	:	Director
E-mail	:	devika.c@fuselage.co.in
Website	:	https://fuselage.co.in/
Sector	:	AgriTech
Address	:	Fuselage Innovations, Kochi, Kerala, India 683503

Profile:

Fuselage Innovations is a leading drone technology company committed to transforming industries with advanced drone solutions. Specializing in the design, development, and manufacturing of advanced UAV systems, we cater to a diverse range of applications. Our core expertise lies in agriculture, where we deliver innovative solutions for crop mapping, precision spraying, livestock monitoring, and more. Our Drones are designed to provide advanced solutions for surveillance, firefighting, and precision mapping, enabling industries to operate more efficiently and safely. While agriculture remains a significant focus, we also offer specialized drone systems for farmland mapping, diagnostics, and sustainable farming practices.

FUTURANEXUS PVT. LTD.

Contact	:	Mr. Ajay Bhardwaj
Designation	:	Founder
E-mail	:	ajaybhardwaj_1975@icloud.com
Website	:	https://getmedjob.com
Sector	:	Other
Address	:	Plot No. 347, Industrial Area, Phase-1, Chandigarh, Chandigarh, India 160002

Profile:

GetMedJob is a specialized online job portal exclusively serving the healthcare sector. We bridge the gap between fresher/ experienced professionals in healthcare sector and top employers through targeted recruitment tools and services. It addresses the significant gap in the market where generic job portals fail to provide targeted, quality matches for jobs in the healthcare sector. Problem: Generic job portals fail healthcare recruiters due to irrelevant applications, lack of industry-specific data, and poor pre-screening. Similarly candidates looking for jobs get irrelevant job influx leading to disappointment. Employer’s dilemma with generic job portals: • Employer in healthcare sector posts a job that competes with other sector job posts on the key words.

GABIFY

Contact	:	Mr. Sahil Chopra
Designation	:	Founder
E-mail	:	founder@gabify.life
Website	:	https://www.gabify.life
Sector	:	BioTech & HealthTech
Address	:	UB64, Jawahar Nagar, Kamla Nagar, New Delhi, Delhi, India 110007

Profile:

At Gabify, we believe that every voice deserves to be heard. We are on a mission to revolutionize the way speech and neurodevelopmental disorders are identified and managed, making early detection and therapy more accessible, affordable, and effective. With 1 in 8 children in India facing neurodevelopmental challenges and only 1 speech therapist per 10,000 individuals in need, the gap in care is staggering. Many families struggle with high costs, long wait times, and a lack of awareness about early intervention. Gabify was created to bridge this gap—empowering individuals with cutting-edge AI technology that makes screening and therapy more efficient, personalized, and inclusive.

GALAXEYE

Contact	**:**	Mr. Venkata Charan Kotte
Designation	**:**	Marketing Manager
E-mail	**:**	venkata.charan@galaxeye.space
Website	**:**	https://www.galaxeye.space/
Sector	**:**	Defence & Space Tech
Address	**:**	2nd Floor, 646,, Bengaluru, Karnataka, India 560102

Profile:

GalaxEye is a deep-tech space startup spun out of IIT Madras, focused on solving the long-standing challenge of inconsistent satellite imagery. Traditional Earth Observation systems face limitations - optical sensors are hindered by clouds and darkness, while radar lacks visual clarity. GalaxEye addresses this by developing the world’s first multi-sensor satellite that fuses Synthetic Aperture Radar (SAR) and optical data at the pixel level. This unique capability ensures consistent, high-resolution imaging in all weather and lighting conditions. By building its own sensors and satellites, GalaxEye maintains full control over the data value chain, enabling reliable and timely insights for critical sectors such as defence, agriculture, disaster management, and environmental monitoring.

Litt energy - a decentralisation of energy for all businesses and consumers taking back control on generation and pricing of energy resources. Solar on the internet , we are enabling a novel approach to enable access to power parity problem and targets of 10 Trillion Dollar economy , we need power and cheap of it. Imagine using power generated from hydro in himachal in maharashtra, solar from Rajasthan used in Aasam. Connecting power asset for powering next gen of industrial revolution. We want to DEMOCRATIZE power, back to the people from the people We want to DISTRIBUTE the power, where needed, when needed. We want to DECENTRALIZE the power, made locally, independently. This helps us achieve our COP 26 goals, and UNSDG goals and much lead India to a self-reliant powerhouse of industrial complex.

Profile:

We build games that create truly Indian experiences for India and the world. Giga Fun Studios was created with the vision of bringing world class gaming experiences to the Indian audiences and to build truly Indian experiences for the world. We love telling beautifully crafted stories with cultural resonance. We build casual puzzle match-3 games which are free-to-play. We aim to redefine localization, going beyond just Indian themes, instead crafting an experience which caters to the Indian players' playstyle and takes into account their sensibilities. In a little over 2 years, we have crafted 3 games in this genre. "Mili Match", our 1st game takes our players through the journey of Mili, a wedding planner who plans various Indian weddings.

GINGLANI DISTILLERS PRIVATE LIMITED/WOODSMEN WHISKEY

Contact	:	Mr. Shivam Ginglani
Designation	:	Founder & CEO
E-mail	:	shivam@ginglanidistillers.com
Website	:	https://woodsmenwhiskey.com/
Sector	:	D2C
Address	:	SUB LEASE C/O OF SABACCHUS DISTILLERY PRIVATE LIMITED, VILLAGE REHRU UPPERLLA, TENSIL NALAGARSH, Nalagarh, Himachal Pradesh, India 174101

Profile:

Whiskies evoke more than just brand names. Scotch, Bourbon or Japanese are iconic whiskey categories eternally connected to the regions they are made in, to their origins. But origins are not just a point on a map – they also bottle the emotions of the people, the land, and the cultures tied to it. This made us wonder – if India has the largest whiskey market in the world (yes, it’s true!), then why is it still dominated by foreign players? Why is there no noteworthy “Indian” whiskey category? Started by Shivam Ginglani, a first-generation whiskey entrepreneur, Woodsmen is an attempt at breaking the shackles around the Indian whiskey industry, building an entirely new category of “Himalayan whiskey” with authentic roots. As a core element, water makes the most difference to whiskey, simply because any whiskey is nearly 60% water.

Sector	:	D2C
Address	:	B-78, New Delhi, Delhi, India 110020

Profile:

Our story began on the winding streets of distant cities, where every corner held a new taste to discover. As we journeyed across the globe, we found ourselves irresistibly drawn to the vibrant world of cocktail bars. These were not mere places to grab a drink, but sanctuaries of art and flavor. Each cocktail was a masterpiece, a harmonious blend of exotic ingredients, crafted with passion and precision. The air was thick with tantalizing aromas, the buzz of laughter, and the clinking of glasses—a celebration of life's finer pleasures. These moments of delight sparked a desire to share these mesmerizing experiences with friends and family back home. Upon returning to India, something was amiss.

GR8 SPORTS INDIA PRIVATE LIMITED

Profile:

At Growdea Technologies Private Limited, we are driven by the philosophy that growth stems from ideas. Established in November 2018 at IIT Delhi, our company specializes in drug discovery by leveraging advanced machine learning (AI/ML) and physics-based computational algorithms. The global pharmaceutical industry faces significant challenges in drug development, with the process taking 10-15 years and requiring an estimated $2.8 billion in capital investment. Furthermore, 80-90% of drug candidates fail during clinical trials, resulting in substantial financial and time losses. Recognizing the urgent need to streamline this process, Growdea Technologies was founded with the objective of enhancing efficiency in drug discovery through computational modeling, simulation, and predictive analytics.

E-mail	:	vikas@happyparentslab.com
Website	:	https://happinetz.com/
Sector	:	AI, DeepTech & Cybersecurity
Address	:	Rh-13, Shagun Society, Pune, Maharashtra, India 412101

Profile:

Introduction Happinetz was founded with a vision to address the growing concerns of parents regarding their children's online safety. Recognizing the challenges posed by unrestricted & unfiltered internet access, we embarked on a mission to create a comprehensive parental control solution that combines technology with user-friendly design. Our journey began with extensive research into the online behaviors of children, the specific needs of parents & solutions available in market along with their limitations. This research informed the development of our internet filter box, which not only monitors and filters online content but also provides parents with valuable insights into their children's digital habits.

E-mail	:	sakshie@healium.io
Website	:	https://healium.camp
Sector	:	BioTech & HealthTech
Address	:	Healium Annexe, 1, Orchard Road Mall, Royal Palms,, Mumbai, Maharashtra, India 400065

Profile:

India's early stage screening infrastructure & pathways (a potential market worth Rs. 1,17,000 crores) are broken. For eg., screening penetration of breast cancer in the US is 70%+ whereas in India it is 1.3% & such are the statistics of various communicable & non-communicable diseases. Lack of early-stage evidence based ecosystem causes late stage diagnosis of every health disorder costing the country heavy financial implications, productivity, poor health, & major opportunity cost. India needs a unique model that can screen populations so that diseases get caught at an early stage.

HUNT VASTU HOMES PVT. LTD.

Contact	:	Mr. Raj Kumar Narang
Designation	:	Co-Founder and CEO
E-mail	:	raj@huntvastuhomes.com
Website	:	https://huntvastuhomes.com
Sector	:	D2C
Address	:	A2-1505, Krishna Apra Gardens, Vaibhav Khand, Indirapuram, Ghaziabad, Uttar Pradesh, India 201014

Profile:

HuntVastuHomes.com is India's first online real estate listing platform that allows users to search for residential properties based on system-generated Vastu compliance ratings. Unlike traditional property portals that only provide basic listing details, HuntVastuHomes offers data-driven Vastu insights using a proprietary algorithm developed by Dr. Smita Narang, a globally recognised Vastu expert with over two decades of experience. This innovation solves a very real problem. While 93% of Indian homebuyers prefer Vastu-compliant homes, there is no existing platform that helps them filter or evaluate properties based on Vastu principles. Instead, buyers rely on expensive, subjective Vastu consultants or guesswork - often leading to confusion and lack of trust.

Profile:

At Intrinsic Foundries, we're transforming industrial carbon emissions into valuable resources through our innovative Carbon Biofoundry platform. Our dual approach combines cutting-edge carbon capture with premium biochemical production. Our proprietary photobioreactor systems harness microalgae's power to convert waste CO_2 into biomass with 15x higher productivity than conventional methods. This technology, already validated at Adani Power and Tata facilities, represents a breakthrough in industrial-scale carbon utilization. Through our biorefinery platform, we extract high-value compounds including premium lipids, natural pigments, and specialty biochemicals that command premium market prices. Our unique "carbon banking" approach ensures optimal utilization even during variable emission periods.

Profile:

Our Vision is to elevate the rich heritage of Chikankari beyond apparel, crafting premium artisanal lifestyle products with global appeal. We strive to create social impact through job creation, fair wages, and skill development while building a profitable and sustainable business. Our mission is to empower our artisans by taking our brand to a global stage. To preserve and innovate the art of Chikankari by creating exquisite, handcrafted lifestyle products that blend tradition with contemporary elegance. Despite its rich heritage, Chikankari embroidery remains largely limited to apparel, with artisans often facing low wages, inconsistent demand, and lack of global market access. Additionally, the home textile industry is dominated by mass-produced, machine-made products, leaving little space for authentic, artisanal alternatives.

We are ISRO's First Registered Merchandiser and of National Railway Museum and have created artefacts narrating stories of India's Institutions of Eminence.

INDIEHAAT FASHION PRIVATE LIMITED

Contact	:	Mrs. Priyanka Srivastava
Designation	:	INDIEHAAT FASHION PRIVATE LIMITED
E-mail	:	anshuman.srivastava@indiehaat.com
Website	:	https://indiehaat.com/
Sector	:	D2C
Address	:	1/172, VIRAM KHAND, Lucknow, Uttar Pradesh, India 226010

Profile:

IndieHaat is a celebration of authentic Indian craftsmanship, where every product carries the legacy of skilled hands and cultural heritage. As a brand dedicated to "Authentic, Indian, Handmade" creations, it curates and offers over 7,000 unique pieces—each crafted under its own label, directly from India's artisan clusters. From the fine muslin and jamdani sarees of Santipur and Phulia to the vibrant kantha, banjara, and appliqué embroideries of Barmer, every item is a testament to India's timeless artistry. Born from a mission to preserve vanishing crafts, IndieHaat addresses a critical gap: artisans in rural clusters like Maheshwari, Mangalagiri, and Kutch faced limited access to markets, while urban consumers yearned for genuine, handcrafted products.

INDRA

Contact	:	Mr. Vineet Mankar
Designation	:	Associate Business Development
E-mail	:	vineet.mankar@indrawater.com
Website	:	https://indrawater.com/
Sector	:	Climate Tech
Address	:	Bhumi World Industrial Park, D10/11-12, Bhiwandi, Maharashtra, India 421302

Profile:

INDRA is pioneering innovation in decentralized industrial wastewater treatment, focusing on removing complex pollutants from effluent streams to maximize wastewater recovery and reuse. The foundation of it was lied when the founders Mr. Amrit Om Nayak and Mr. Krunal Patel identified this problem statement in USA during their MS that there is no standardized wastewater treatment solution. Thus this problem statement was brought back to India where the need of a permanent solution was long awaiting. Indra was conceptualized with an aim to revolutionize the wastewater treatment market with modular solutions which can be scaled up very easily unlike the EPC approach.

Website	:	https://justelectric.in/
Sector	:	Mobility
Address	:	56, Ground Floor, Trilanga Main Rd,, Bhopal, Madhya Pradesh, India 462039

Profile:

At Just Electric, our core mission is to address the environmental challenges posed by conventional petrol vehicles. The widespread use of petrol vehicles contributes significantly to air pollution, greenhouse gas emissions, and noise pollution, particularly in densely populated urban areas. This has adverse effects on public health, the environment, and quality of life. Our primary focus is on offering retrofitting solutions that transform existing petrol vehicles into electric ones. Unlike many companies in the electric vehicle space that prioritize manufacturing new electric vehicles, we recognize the immense potential for reducing emissions by converting the millions of petrol vehicles already on the roads. What sets us apart is our holistic approach to tackling this problem.

INSTALLCO WIFY TECHNOLOGY PVT LTD

Contact	:	Mr. Deepanshu Goel
Designation	:	Director
E-mail	:	deepanshu.goel@wify.co.in
Website	:	https://home.wify.co.in/
Sector	:	Other
Address	:	7th Floor, D-704 & R-702, Remi Biz Court, Off New Link Road, Mumbai, Maharashtra, India 400053

Profile:

The trend for online purchase of durable goods like furniture and appliances will continue to grow. While technology has helped overcome the design, selection, touch-feel and overall purchase transaction experience, there is a massive gap in the last step of installation.DIY does not work in India, so WIFY created India’s answer to that. We started as a B2B installation services provider for products which require assembly and/or setup prior to use, e.g., flat packed modular furniture, digital home good and appliances. Today we are the largest player for on-site installation and post purchase services for over 100 companies, including brands such as IKEA, Livspace, Homelane and Hettich. All this is enabled through our technology platform where brands can manage their orders and customers throughout the product lifecycle.

At the heart of our mission is the desire to foster a supply chain that provides financial stability to smallholder farmers and address the pressing issue of post-harvest loss. Driven by a passion for sustainable production, we have integrated environmentally conscious technologies into our production process and facility. Our expertise lies in crafting dehydrated fruits, vegetables, herbs & spices – all meticulously hand selected to ensure exceptional quality and natural goodness. Each product is a testament to our commitment to quality, ethical sourcing and sustainable production.

Profile:

Nutrolis is redefining how modern India approaches everyday health. Built from personal experience and rooted in real care, Nutrolis delivers clean, trustworthy wellness solutions that fit effortlessly into daily life. We're not here to make bold claims or follow trends — we're here to make long-term vitality simple, honest, and accessible. By combining high-quality formulations with an authentic, people-first approach, Nutrolis bridges the gap between what our bodies truly need and what most of us actually consume. It's not just a supplement — it's a movement to bring wellness back into the hands of everyday people.

Website	:	https://www.marinachain.io/
Sector	:	AI, DeepTech & Cybersecurity
Address	:	40 Munhyun guemyoongro, Nam-gu, Busan, Busan, Republic Of Korea 48400

Profile:

MarinaChain is a pioneering technology company dedicated to transforming the maritime industry through advanced artificial intelligence (AI) solutions. Our core offering, MarinaNet, is an AI-powered platform designed to automate the collection and analysis of operational data from vessels, including Daily Reports and voyage information. This automation streamlines data processing, reduces manual entry errors, and enhances the accuracy of emissions tracking. A standout feature of MarinaNet is its AI-driven email parsing capability. By simply adding MarinaChain as a recipient in email communications, our AI system reads and extracts pertinent data, automatically integrating it into the MarinaNet platform. This not only eliminates the need for manual data entry but also detects potential errors, alerting users to ensure data integrity.

MARINER AQUACULTURE PRIVATE LIMITED

Contact	:	Mr. Akhlaq Aghwani
Designation	:	CEO
E-mail	:	akhlaq.aghwani@gmail.com
Website	:	https://marineraquaculture.com/
Sector	:	AgriTech
Address	:	C/O Suhebs exports , jawahar market , near NBC, Jaipur, Rajasthan, India 302006

Profile:

At Mariner Aquaculture, we’re turning India’s untapped water resources into engines of sustainable growth and we want you to join us. Here’s why: We’re already scaling, We’ve leased a 125-acre dam, stocked it with 700,000+ fish seeds, and are finalizing agreements for 500+ additional acres of water reservoirs. Market leadership in sight, With a $14B aquaculture market by 2027, our asset-light model leverages India’s unutilized dams to deliver high-margin, eco-friendly fish farming—no external feed, low operational costs, and minimal environmental impact. Distribution-ready: We’re in advanced stages to launch distribution in Rajasthan, positioning us to dominate North India’s protein demand.

MARKETRICS TECHNOLOGIES PVT LTD

Contact	:	Mr. Dhruv Srivastava
Designation	:	CEO and Director
E-mail	:	dhruv@easyreplenish.com
Website	:	https://www.easyreplenish.com/
Sector	:	D2C
Address	:	Unit 104, Tower 9 Laxmi Apartment, Gurgaon, Haryana, India 122505

Profile:

EasyReplenish: Smarter Inventory, Higher Profits Fashion e-commerce brands struggle with stockouts, surplus inventory, and demand miscalculations. A bestseller goes out of stock for weeks, killing momentum. Another SKU lingers in storage, locking up capital. Traditional inventory planning, driven by spreadsheets and gut feel, isn't enough. That's where EasyReplenish comes in. We help fashion and accessory brands optimize inventory with data-driven replenishment, ensuring the right stock at the right time—without overbuying or running out. Why Fashion Brands Need EasyReplenish Unlike generic inventory tools, EasyReplenish is built for fashion e-commerce, where styles, sizes, and seasonality make replenishment complex. We factor in: Broken styles & cut sizes—Prevent lost sales by tracking stock gaps at the size level.

MEALPE ONLINE FOOD ORDERING POS PRIVATE LIMITED

Contact	:	Mr. Maharsh Shah
Designation	:	Maharsh Shah
E-mail	:	maharsh@mealpe.org
Website	:	https://medmeals.mealpe.app
Sector	:	BioTech & HealthTech
Address	:	A-38 Vraj Vihar Society, Vasna Road, Ahmedabad, Gujarat, India 390007

Profile:

About MealPe MedMeals MealPe MedMeals is an advanced hospital meal management solution designed to streamline food ordering, delivery, and dietary compliance for hospitals, senior living facilities, and home healthcare services. It simplifies patient meal selection while ensuring hospitals maintain high operational efficiency, regulatory compliance, and cost-effectiveness. Problem Statement Managing patient meals in hospitals is complex due to varying dietary requirements, meal preferences, and operational inefficiencies in meal preparation and delivery. Traditional meal ordering systems rely on manual processes, leading to errors, wastage, and a poor patient experience. Additionally, hospitals and senior care facilities face challenges in monitoring meal intake, tracking dietary compliance, and managing real-time inventory.

Sector	:	AI, DeepTech & Cybersecurity
Address	:	UGF # 4, Building # 48, Hasanpur,, Delhi, New Delhi, India 110092

Profile:

We believe electronics shouldn't fail because of heat. As devices become more powerful—whether in telecom, data centers, or semiconductors—overheating remains a critical bottleneck, limiting performance and reliability. But today's thermal materials haven't evolved to keep up. That's why at Meerkats.World, we've developed a Nanostructured Metallic Thermal Interface, designed to transfer heat far more efficiently than conventional solutions. This means more reliable networks, longer-lasting electronics, and better energy efficiency. As an Indian deep-tech company, we're building this for the future of global electronics—starting right here.

MEFU-X

Contact	:	Ms. D Kundana Sai
Designation	:	Founder
E-mail	:	kundanasai004@gmail.com
Website	:	https://spmvv-tbi.in/
Sector	:	Climate Tech
Address	:	6-82, Subba Reddy Nagar, Tirupati., Tirupati, Andhra Pradesh, India 517502

Profile:

This invention introduces a sustainable floating bioremediation device designed for in situ removal of heavy metals, dyes, and organic pollutants from contaminated water bodies. It integrates microalgae-based bioremediation, EDTA-modified magnetite nanoparticle adsorption, and multi-stage filtration for efficient pollutant removal. The system features a compartmentalized floating platform housing immobilized microalgae and magnetite nanoparticles within a specialized ATC matrix. This matrix enhances pollutant adsorption while stabilizing the active components. Citric acid-modified jute fibers further boost filtration efficiency by capturing organic contaminants and dyes.

Profile:

Our Sweet Journey: The Story of Mielo Honey After graduating from IIT Bombay, Deepak Baghel was eager to find solutions to the pressing challenges in Indian agriculture. In 2016-17, his journey led him to explore the declining effectiveness of pollination, a critical issue affecting farmers across the country. His search for answers brought him into the world of bees—a world where nature’s tiniest workers play a vital role in sustaining our food supply. What began as a quest to help farmers and improve crop yields soon turned into a passion for sustainable beekeeping. It wasn’t long before Neha Rai joined Deepak on this mission. Together, they founded Mielo Honey, driven by a shared vision to support Indian farmers and promote natural, sustainable beekeeping practices.

Sector	:	Other
Address	:	25/173-2 MIRACLE SPICES,EGM BUILDING 25/173-2, Pathanamthitta, Kerala, India 689645

Profile:

MIRACO is an IIM Bangalore-incubated startup on a mission to revolutionize the spice industry by offering whole spices, premium nuts, and healthy seeds sourced directly from farmers. Unlike traditional brands that sell pre-ground spices, MIRACO empowers consumers with a DIY approach, allowing them to create fresh and unadulterated spice powders at home. This ensures authenticity and rich flavors while eliminating the risk of adulteration—a pressing concern in the spice market today. Our Mission and Impact At MIRACO, we believe that quality begins at the source. We work directly with farmers to procure the best whole spices, ensuring fair pricing and sustainable practices. By eliminating middlemen, we provide both better earnings for farmers and affordable prices for consumers.

Website	:	https://miraqules.com/
Sector	:	BioTech & HealthTech
Address	:	H.No 111, Subhaspally Road, Burdwan, West Bengal, India 713101

Profile:

Miraqules is a medical device startup from NIT Rourkela, developing biopolymer-based wound care solutions to be considered as potential alternatives to the conventional ways of wound management. Through a proprietary fabrication process, we’re developing novel compounds that closely mimic the body’s natural wound-healing mechanisms. Our first product is an advanced hemostat designed for rapid control of post-trauma bleedings as well as bleedings from surgical procedures. It is the first hemostat in the world developed to have structural resemblance with naturally occurring fibrin threads, enhancing the body’s own clotting process. Independent studies indicate it is up to five times more effective than existing international alternatives.

Sector	:	BioTech & HealthTech
Address	:	401H, Diamond jubilee academic complex, Kanpur Nagar, Uttar Pradesh, India 208016

Profile:

NadiPulse is a health and wellness technology that utilizes Nadi Pariksha, an ancient Ayurvedic diagnostic method based on pulse reading, combined with modern digital advancements. It aims to provide deeper insights into an individual's health by analyzing pulse variations to assess bodily imbalances, dosha constitution (Vata, Pitta, Kapha), and potential health risks. How It Works NadiPulse uses specialized sensors and algorithms to detect pulse signals, which are then interpreted through Ayurvedic principles. The technology measures the rhythm, speed, and intensity of the pulse at seven different levels to determine energy imbalances and overall well-being. Key Features Dosha Analysis: Identifies an individual's primary dosha and any imbalances.

Sector	:	D2C
Address	:	EKA CLUB no. 178/179/180/181 first floor,, Ahmedabad, Gujarat, India 380022

Profile:

Our story Nandi Panchgavya was founded with a profound goal of making a positive impact on people, animals, and our environment. The team shares a deep-rooted interest in traditional Indian agricultural practices and sustainable living. Fascinated by the concept of Panchgavya, which comprises five natural products derived from cow milk, cow urine, cow dung, curd, and ghee, they recognized its centuries-old use as a natural fertilizer in Indian agriculture. Through extensive research and experimentation, the team successfully developed a range of Panchgavya products. They seized an opportunity to support gaushalas, or cow shelters, which produce these products as part of their mission to care for cows.

Sector	:	D2C
Address	:	NECRAFTERS ENTERPRISE LLP, PACHONI BORA CHUCK, WARD NO.14, Jorhat, Assam, India 785001

Profile:

NE CRAFTERS is a premium food brand focused on crafting high-quality chili oils and pure spices that enhance the flavor of everyday cooking. Our range of chili oils, including Bhut Jolokia Chili Oil, Szechuan Pepper Chili Oil, and Chili Garlic Oil, are made using handpicked ingredients from Assam and Nagaland, carefully processed at controlled temperatures to preserve quality, flavor, and shelf life. These oils are completely MSG-free, free from harmful preservatives, added colors, and artificial flavours, making them clean and safe for regular use. Our chili oils are designed to perfectly complement a variety of cuisines such as Indian, Chinese, Korean, and Japanese, and pair well with dishes like momos, noodles, ramen, fried rice, dumplings, stir-fried vegetables, grilled meats, and soups.

NEECOP CONSULTANTS PRIVATE LIMITED

Contact	**:**	Mr. Yagyesh .
Designation	**:**	Director
E-mail	**:**	yagyeshv9999@gmail.com
Website	**:**	https://neecop.com/
Sector	**:**	FinTech
Address	**:**	3134 & 3135, Road Number 8, Patna, Bihar, India 800024

Profile:

Micro, Small, and Medium Enterprises (MSMEs) form the backbone of India's economy, contributing significantly to employment and GDP. However, MSMEs face challenges such as limited networking opportunities, difficulty in securing investment, complex regulatory compliance, and lack of market visibility. NEECOP aims to address these challenges by creating an integrated, AI-powered digital platform that connects MSMEs with investors, business partners, and industry experts, enabling seamless networking, financial access, and business growth. The MSMEs in India face certain problems in operations like: Limited networking and partnership opportunities. Lack of access to structured investment and financing. Regulatory challenges and compliance issues. Low visibility and market reach.

Profile:

La Neeno Edutech is revolutionizing early childhood education in India with its AI-driven learning model, integrating life skills, activity-based methods, and innovative pedagogy to create a holistic educational experience. Understanding the crucial role of early years in a child’s cognitive and emotional development, La Neeno is pioneering a shift from traditional rote learning to an engaging, interactive, and technology-powered approach that nurtures young minds for a rapidly evolving future. With three fully operational branches and LOIs secured for ten more, La Neeno is on a rapid expansion path. The startup envisions establishing 100 branches over the next five years, making AI-powered early education accessible to children across India.

NEER SHAKTI SYSTEMS PRIVATE LIMITED

Contact	:	Mr. Anant Kapur
Designation	:	Managing Director
E-mail	:	anantkapur1997@gmail.com
Website	:	https://www.niconanobubbles.com/
Sector	:	AgriTech
Address	:	Room No. 1, 3rd Floor, CIF, Manipal GoK Bioincubator, Advanced Research Centre, Madhav Nagar, Manipal Udupi, Karnataka, India 576104

Profile:

NICO Nanobubbles is at the forefront of nanotechnology innovation, delivering cutting-edge oxygen nanobubble solutions that enhance agriculture, aquaculture, and water & wastewater treatment. Our technology harnesses the power of ultrafine nanobubbles, which remain suspended in water longer than conventional aeration methods, offering superior oxygen transfer, increased water quality, and improved resource efficiency. Agritech: Transforming Farming & Aquaculture NICO Nanobubbles optimizes agricultural irrigation and aquaculture systems by increasing dissolved oxygen (DO) levels, enhancing soil health, and promoting stronger root development. Key benefits include: Higher Crop Yields – Improved nutrient absorption & soil microbiome health. Reduced Fertilizer & Pesticide Use – Healthier plants need fewer chemical inputs.

Zangoh: Transforming Workflows with AI Agents Zangoh is an AI startup on a mission to replace software chaos with digital workers—AI agents that tackle entire workflows, not just chat. Founded by Shrey Sharma (IIT Kharagpur alumnus, ex-Pinterest AI engineer, and patent holder), Zangoh delivers autonomous AI solutions that handle real business tasks end to end. Traditional software tools often burden enterprises with repetitive data entry and complex integrations. Our vision is simple: “No More Software Overload, Just Real Work Done.” We create digital workers—capable of learning from your data, connecting to CRMs, ERPs, or external APIs, and continuously improving. The result? 80% faster processes, 30% lower costs, and fewer human escalations.

NEXCOPE PRIVATE LIMITED

Contact	:	Mr. Musharraf Abdullah
Designation	:	Director
E-mail	:	mushabd.22@gmail.com
Website	:	https://nexcope.space
Sector	:	Defence & Space Tech
Address	:	Ekta Nagar, Aligarh, Aligarh, Uttar Pradesh, India 202001

Profile:

Our startup focuses on revolutionising space technology with a cutting-edge plug-and-play Payload Bus designed for efficient satellite imaging and data processing. At the heart of our innovation lies a unique zero-memory image compression algorithm that eliminates the need for memory-intensive processes. This groundbreaking technology significantly reduces data size, accelerates processing speed, and enables faster image transmission. These features are critical for space missions, where bandwidth is limited, and power consumption must be minimized. Our Payload Bus is specifically optimized for resource-constrained environments, offering high performance without requiring additional hardware.

Website	:	https://www.nextskills360.in
Sector	:	Other
Address	:	Level 1, MidTown Regus, Road No. 1, Banjara Hills, Hyderabad, Telangana, India 500034

Profile:

Next Skills 360 EdTech Private Limited is a for-profit social enterprise crusading to build equitable classrooms by making inexpensive and highly relevant 21st-century skilling products for underprivileged school students and, more recently, visually-impaired students. Over 70% of schools in India lack access to computers, leaving underprivileged students, without essential digital skills. The National Educational Policy 2020 emphasizes the need for coding skills, but for many, learning these skills remains out of reach. Our product uses an AI-based Mobile App to detect cardboard pieces (along with printed and handwritten text) that are placed on a gaming board. The detected code is then compiled and executed, and the output of the program is displayed on the mobile phone. Demo: https://youtu.

E-mail	:	niyofarmtech@gmail.com
Website	:	https://niyofarmtech.com/
Sector	:	AgriTech
Address	:	Plot No 100, Flat No 02, Shiv Residency, Ulakanagari, Aurangabad, Maharashtra, India 431001

Profile:

NIYO FARMTECH is a leading agritech company dedicated to developing advanced, sustainable, and farmer-friendly agricultural solutions. The company's flagship product, NIYO SPRAYER, is a revolutionary solar-operated agricultural sprayer designed to address key challenges faced by farmers in pesticide application. The Problem with Traditional Sprayers Conventional pesticide spraying methods involve manual knapsack sprayers, which present several challenges: Labor-Intensive: Manual spraying requires significant physical effort, making it difficult for small-scale farmers. Health Risks: Farmers are exposed to harmful pesticides, leading to skin irritation, eye damage, and poisoning. Time-Consuming & Inefficient: Traditional sprayers require frequent refilling and cover limited areas per use.

Website	:	https://olitia.com/
Sector	:	BioTech & HealthTech
Address	:	B156 Ramayan Marg Hanuman Nagar B Vashali Nagar, Jaipur, Rajasthan, India 302021

Profile:

Olitia Cares LLP is a pioneering company in the field of olive tea and olive leaf extract. Based in Rajasthan, India, Olitia is known for introducing olive tea as a unique product made from the leaves of olive trees. The company grows its olive trees in the western regions of Rajasthan, an area that offers ideal conditions for cultivating high-quality olive leaves. These leaves are harvested, processed, and brewed into a tea that is rich in antioxidants and known for its stress-relieving properties. In addition to olive tea, Olitia also produces olive leaf extracts, which are recognized for their health benefits, including bone health support.

PHANTASTIC BIOPLASTICS PRIVATE LIMITED

Contact	:	Dr. Priyam Tyagi
Designation	:	Founder
E-mail	:	priyam@phantastic.org
Website	:	https://phantastic.org/
Sector	:	Climate Tech
Address	:	C-104 sector 43, Noida, Uttar Pradesh, India 201303

Profile:

At Phantastic Bioplastics, we are on a mission to transform industrial waste into high-performance, biodegradable Polyhydroxyalkanoates (PHAs)—ushering in a new era of sustainable materials. Based in India, our startup is committed to developing cost-effective, scalable, and eco-friendly solutions to replace conventional plastics. By leveraging cutting-edge microbial fermentation technology, we convert waste streams from industries into high-value, home-compostable PHAs, contributing to a truly circular economy. Why PHAs? PHAs are a class of biodegradable and biocompatible polymers naturally synthesized by microorganisms. Unlike traditional plastics, which persist in the environment for centuries, PHAs degrade naturally in soil and home compost conditions, reducing long-term waste accumulation.

Profile:

Our journey began with a personal experience. Our founder, Jaswant Singh, witnessed his friend Hitesh suffered an ACL tear while playing football. Seeing the challenges Hitesh faced during his recovery, Jaswant realized the critical role of skilled sports physiotherapists in preventing and treating injuries. Inspired by this experience, we set out to create an accessible platform connecting athletes and individuals with qualified physiotherapists. Our mission is to educate parents, coaches, and the general public about the importance of preventive care and rehabilitation in sports and everyday life. By providing a convenient way to find the right physiotherapist, we aim to support individuals on their path to optimal health and well-being.

Profile:

PINQ: A Reflection of You—Unfiltered, Unstoppable, Unapologetic PINQ isn’t just a brand; it’s a movement for modern women—whether you’re a Gen Z trendsetter, a millennial go-getter, or simply someone who prioritizes self-care without compromise. Inspired by the bold, woke, and free-spirited energy of today’s woman, PINQ is here to make intimate hygiene and lifestyle care a truly feel-good experience. What started as a simple need to make “Those Days” easier for women-on-the-go has now evolved into PINQ POLKA—a full-fledged brand built on self-care, confidence, and breaking taboos. Founded by a social entrepreneur and a single mother, PINQ was born from a personal journey of prioritizing health, hygiene, and self-love. Self-care, but make it unapologetic.

PLANET PROTECTOR PACKAGING

Contact	:	Ms. Rhea Singh
Designation	:	Head of ESG
E-mail	:	rhea@planetprotectorgroup.com
Website	:	https://planetprotectorpackaging.com/
Sector	:	Climate Tech
Address	:	40 Egerton St, Sydney, Nsw, Australia 2128

Profile:

Planet Protector manufactures an award-winning insulated packaging called WOOLPACK. It is a sustainable and cost competitive alternative to Thermocol (EPS). Made from 100% sheep wool, wool that is unsuitable for textiles and ordinarily ends up in landfill. WOOLPACK is primarily used to deliver superior temperature stability for pharmaceuticals and life sciences cold chain. In addition, it offers significant cost savings in terms of reduced storage space, freight costs, reduced weight of packaging and impact resistance. Planet Protector was one of only six Australian businesses chosen for the inaugural cohort of the CSIRO & NITI Aayog RISE program to promote cross border innovation between Australia and India. We are expanding internationally into South Asia, one of the largest pharmaceutical market in the world!

POLYCYCLE

Contact	:	Mrs. Debjani Roy
Designation	:	nan
E-mail	:	debjani.roy@polycycl.com
Website	:	N/A
Sector	:	Climate Tech
Address	:	KK-16, HSIDC Estate, Kalka, Haryana, India 133302, Chandigarh, Haryana, India 133302

Profile:

PolyCycl is dedicated to propelling the plastic-to-plastic circular economy, converting hard to recycle waste plastics into high-quality hydrocarbon feedstocks for use in the production of new plastics and other low-carbon materials. At the heart of the plastic waste problem is the linear take-make-dispose model of consumption, where plastic items are produced, used briefly and then discarded. PolyCycls innovative, patented technology recovers valuable hydrocarbon molecules from end-of-life waste plastics, converting them_x000D_ into high-quality liquefied hydrocarbon oils. These oils can then be used as raw materials for producing low-carbon circular plastics, sustainable chemicals and renewable fuels, which have applications spanning various industries, including transportation and aviation.

EV Charging Application is developed inhouse to cater to the user's comfort, safety and ease of EV charging. We believe that if EV is charged with only grid using fossil fuels, then the purpose of switching to EVs is defeated. Therefore we also manufacture 100% conceptualized, designed, tested and manufactured in India AC EV Charging stations. Solar being our core competency, we design and integrate it with Solar to get the maximum green energy to charge the vehicle. Also making from Circuit level, gives us an edge over serviceability, quick response time, customization possibility, price advantage and strong import substitute.

Profile:

Executive Summary: Puitu Tech Private Limited aims to transform Mizoram's unorganized labor market by providing a structured, technology-driven platform. Addressing the fragmented and unreliable nature of current informal systems, we offer verified worker profiles, streamlined job matching, secure payments, and upskilling opportunities. This initiative empowers workers, enhances employer reliability, and contributes to Mizoram's economic growth. Problem Statement: Mizoram's unorganized labor sector, vital to its economy, operates largely through informal channels like social media. This leads to: 1. Lack of Trust & Verification: Employers struggle to assess worker reliability. 2. Inefficient Job Matching: Job seekers and employers face challenges in finding suitable matches. 3.

E-mail	:	marketing@rsfp.in
Website	:	https://www.rsfp.in/
Sector	:	AgriTech
Address	:	45/2 Agrawal Parisar, Nayta Mundla, Nemawar Rd, Palda,, Indore, Madhya Pradesh, India 452020

Profile:

The Indian food processing sector has witnessed remarkable growth over the years, contributing significantly to the nation's economy. With an annual growth rate of 7.3% between 2015 and 2022, this industry has played a crucial role in enhancing agricultural value addition, reducing post-harvest losses, and creating employment opportunities. At the heart of this transformation is Raheja Solar Food Processing (RSFP), a pioneer in sustainable food preservation through solar dehydration technology. At Raheja Solar Food Processing (RSFP), we are committed to solving one of the most pressing challenges in agriculture—post-harvest food loss. India, despite being one of the largest agricultural producers, faces a significant issue of food wastage due to inadequate storage and processing facilities.

Website	**:**	https://www.recyclex.in/
Sector	**:**	Climate Tech
Address	**:**	A/99, Patel Supermarket,, Bharuch, Gujarat, India 392001

Profile:

recycleX uses industrial minerals like steel slag and Construction waste to permanently remove CO_2 through enhanced mineralization and replace 100% cement for various grades of concrete and its products. We convert atmospheric CO_2 into carbonate minerals using highly reactive minerals in steel slag that we crush and mix into different types of concrete products. After we deploy our concrete, they begin to react passively and remove CO_2 without additional energy inputs. We use an industrial byproduct to capture carbon while building better concrete. Because we work with an established industrial partner, we can deliver CO_2 capture at industry-leading costs. Our process leverages existing industrial infrastructure, which already moves gigatons of concrete material globally.

REMINE INDIA PRIVATE LIMITED

Contact	:	Mr. Vivek Goel
Designation	:	Director
E-mail	:	director@remine.in
Website	:	https://www.remine.in
Sector	:	Climate Tech
Address	:	D-57, Sitarganj, Uttarakhand, India 262405

Profile:

At Remine India, we are redefining the future of sustainability by closing the loop on Lithium-Ion Battery waste. As India’s dependence on imported critical metals like Lithium, Cobalt, and Nickel grows, so does the challenge of managing discarded batteries. We transform this challenge into an opportunity by recycling end-of-life batteries to recover high-purity battery-grade materials—reducing reliance on imports while preventing hazardous waste from polluting the environment. Unlike conventional recycling methods that are costly, chemically intensive, and inefficient, our indigenous technology maximizes recovery rates, consumes fewer chemicals, and makes the process more cost-effective.

Website	:	Http:/www.reproc.in
Sector	:	Climate Tech
Address	:	202/2 MUNGANTHOTTAM, Coimbatore, Tamil Nadu, India 641202

Profile:

Reproc is an innovative sustainability startup dedicated to tackling plastic waste by transforming non-recyclable materials into high-value, durable products. Our mission is to create a circular economy where plastic waste is no longer a burden on the environment but a resource for building a sustainable future. What We Do At Reproc, we specialize in recycling multi-layered plastics (MLP), including: • Chocolate wrappers • Tetra Pak cartons • Other post-consumer plastic waste These materials are notoriously difficult to recycle due to their mixed composition of plastic, aluminum, and paper. However, using advanced recycling processes, we convert them into rigid solid boards that serve as an eco-friendly alternative to wood and other conventional materials.

Profile:

Rowbotix® is an OEM of IoT enable sowing implement . We are addressing lack of proper equipment and workforce shortage in agriculture. The first product Kropter®, is a tractor driven precision sowing implement that is developed to overcome major problems of currently used mechanical machinery. Our IoT-based sowing solutions are well-positioned to thrive in India’s agricultural shift from traditional volume-based sowing (kg/acre) to climate-resilient distance-based precision planting. This approach optimizes seed spacing, drastically reducing seed waste while enhancing yields and crop adaptability. With India’s farm mechanization rates significantly trailing global benchmarks, government subsidies for equipment purchases under national schemes create a ripe market.

Profile:

SA Digital, a forward-thinking partnership firm, was founded on October 6, 2016, by two visionary female entrepreneurs, Shikha Nagori and Naushka Ingle. Driven by a shared passion for innovation in education, the company was established with the goal of providing cutting-edge solutions to educational institutions across India. Over the years, SA Digital has grown into a leader in educational technology, delivering products and services that align with modern pedagogical standards and the evolving needs of schools. The company's commitment to revolutionizing education is embodied in its flagship offerings, including proprietary trademarks like Grobot and EdukartIndia. These brands represent SA Digital's focus on merging technology with learning, empowering students to develop critical skills in electronics, coding, and problem-solving.

Profile:

Saafkar is a doorstep car cleaning service designed for people who value convenience, quality, and efficiency. We understand that car owners often struggle to find time for a proper car wash, whether due to busy schedules or the hassle of waiting in long queues at service centers. That’s where we come in. Saafkar brings professional car cleaning to your doorstep, saving you time while ensuring your vehicle gets the care it deserves. At Saafkar, our mission is to simplify car cleaning by making it more accessible and hassle-free. We believe that car owners should not have to compromise on cleanliness due to a lack of time. Our goal is to provide a quick, high-quality, and reliable cleaning service that ensures every vehicle looks its best without disrupting the owner's day.

SAANTHA

Profile:

Saantha derives its name from Santhali embroidery, an exclusive art form developed and practiced only in Jharkhand. Recognized by Dr. Sudha Dhingra, former Textile Chairperson at NIFT, as a unique and unseen craft in India, this intricate embroidery reflects the rich heritage of Santhal tribal artistry. As a sustainable fashion brand, Saantha is committed to empowering artisans, particularly from Primitive Tribal Groups (PVTGs) in the red-corridor districts of Jharkhand. By providing skill development, modern tools, and direct market access, we ensure artisans become profit-earners rather than wage workers. Our collections seamlessly blend traditional craftsmanship with contemporary aesthetics, featuring: 1.Handloom & Block-Printed Sarees inspired by Sohrai and Kohvar tribal art. 2.

Profile:

Sabhyasha Retail Tech: Transforming Rural E-commerce Sabhyasha Retail Tech is on a mission to digitally empower India’s rural artisans and SHG (Self-Help Group) women, unlocking their access to mainstream e-commerce. Despite India having 43 million artisans and 90 million SHG women contributing to one of the world’s largest handmade economies, these entrepreneurs remain largely excluded from digital commerce. Challenges such as limited digital literacy, complex logistics, payment processing hurdles, and lack of discoverability force them to rely on local markets and middlemen, restricting their earnings and growth. Even with a $100 billion+ handicraft market, rural sellers struggle to tap into national and global buyers.

Problem statement: India is dealing with an increase in the mental health crisis particularly for its youth. There is a steady increase in the number of student suicides according to the National Crime Records Bureau (NCRB) with over 13000 cases reported in 2021 alone. There are number of factors like academic pressure, social expectations, financial stress and personal challenges leading to a spike in anxiety, depression and suicidal ideation among students. Traditional therapy primarily relies on talk therapy which is often inadequate for individuals struggling with expressing emotions or social stigma surrounding mental health. Many students experiencing distress hesitate to openly address their issues making it challenging for psychologists to provide timely intervention.

SATIQ CONCRETE MANUFACTURER PRIVATE LIMITED

Contact	:	Dr. Shantanu Bhattacherjee
Designation	:	Director
E-mail	:	shantanu@scmconcrete.com
Website	:	https://www.scmconcrete.com/
Sector	:	Climate Tech
Address	:	IITM RESEARCH PARK, 1FA, I FLR, KANAGAM ROAD, TTTI TARAMANI, CHENNAI CITY CORPORATION, Chennai, Tamil Nadu, India 600113

Profile:

The cost and carbon footprint of concrete are largely influenced by its cement content. Since standardized alternatives to cement are not widely available, it is rarely replaced in actual construction projects. However, SatiQ is developing standardized alternatives that can replace 30% to 70% of cement using waste materials sourced from within 150 kilometers of the production plant. We adopt a waste-agnostic approach, processing waste based on its chemistry and utilizing data to produce binders that can substitute for cement. The integration of cement chemistry, concrete technology, and AI/ML-based data processing helps optimize the cement content in our products. Utilization of Locally Available Waste for Alternative Binders We utilize waste found within a 150 km radius of the manufacturing site based on its chemical composition.

E-mail	:	jahnavi@newkind.in
Website	:	https://newkind.in/
Sector	:	D2C
Address	:	8-2-268/K/3, Navodaya Colony, Rd no.2, Hyderabad, Telangana, India 500034

Profile:

At NewKind, we are redefining menstrual care with our safe, comfortable & sustainable period underwear. Women are making more conscious choices with regards to the menstrual products they use and this shift has only just begun. Majority of the traditional options such as disposable pads and tampons contain toxins that have been linked to immune issues & hormonal disruption. Our products are toxin free and designed for comfort & confidence, featuring multi-layered leak-proof technology, built into the underwear. Each underwear can be washed & reused for 3 years and can be worn for upto 10hrs, making this is a more cost-effective option. Our customers love the product and find it 'super comfortable', 'easy to wash' & 'great for heavy flow days also'.

SIMK LABELS PRIVATE LIMITED

Contact	:	Mrs. Simran Khara
Designation	:	Director
E-mail	:	simran@koparo.in
Website	:	https://koparoclean.com/
Sector	:	D2C
Address	:	55, 2nd Floor, Lane-2, Westend Marg, Saidulajab,, New Delhi, Delhi, India 110030

Profile:

At Koparo, we believe in hands-on parenting. Often when kids pitch in with the household chores, the simple task of folding clothes becomes a tent making competition. Wiping the kitchen counter ends up in us making a spontaneous snack. Scrubbing the floor becomes a dance fest and more often than not, those little fumbling feet and bumbling hands may lead to situations where the cleaning never ends. But every day, what never stops is the growing, the bonding, the learning and the laughing. A mum from New Delhi started Koparo with a single goal of making effective, plant-powered cleaning & hygiene products that are safe to use in all homes. NO NASTIES. ONLY BESTIES. We've ensured we don't put anything in our products that you wouldn't let your kids touch.

Fashion has evolved, yet many segments remain trapped in mass production, overwhelmed with uninspired, monotonous designs. Kalānkit dares to challenge this, redefining fashion accessories like bags, wallets, travel accessories etc. by infusing them with art and craftsmanship. At Kalānkit, our accessories are more than just products—they are canvases of artistic expression. We collaborate with talented Indian artists, transforming their original designs into handcrafted statement pieces. But our commitment goes beyond design. Every purchase at Kalānkit directly supports and empowers artists, ensuring they receive well-deserved recognition and royalty-based compensation. Creativity isn't just admired here—it's nurtured and rewarded.

Skillonation Kids: Nurturing the Art of Questioning and Holistic Development We believe that fostering curiosity, nurturing creativity, and developing problem-solving skills is true essence of education. At Skillonation Kids, we believe in the Art of Questioning, the ability to ask "Why?" and explore beyond textbooks. Millions may have seen the apple fall, but it was Newton who asked why. This fundamental trait of curiosity has shaped human civilization, innovation, and progress. Who We Are Skillonation Kids is a holistic development-based skilling platform dedicated to revolutionizing the way children learn. We focus on fostering critical thinking, creativity, and hands-on problem-solving.

Skillonation Kids: Where Curiosity Meets Creativity. Ever wondered what makes great minds different? It’s the art of questioning! Millions saw the apple fall, but Newton asked why—and boom! Physics was never the same. At Skillonation Kids, we’re on a mission to turn every child into a thinker, a creator, and a Problem-solver sparking the genius with the potion of Innovation. Who Are We? We’re not regular education platform. We’re a curiosity-driven movement! At Skillonation Kids, we believe learning should be fun, practical, and hands-on—because let’s face it, who remembers boring lectures? We’ve ditched rote learning and replaced it with exciting, project-based education that mixes logic, creativity, and innovation.

Website	:	https://www.skiom.in
Sector	:	BioTech & HealthTech
Address	:	Block- E, Flat no 1703, Brigade Metropolis, Bangalore, Karnataka, India 560048

Profile:

We are a start up initiated by Industry veterans interested to develop skin health and wellness products for topical applications. There are widespread skin disorders starting from Acne at Teen age to wrinkle formation, skin aging at later stage. There are products available but largely providing benefits for short term or not targeted to root cause level which is the skin microbiome. Most of the products contain antimicrobials which kills the beneficial microbes rather than protecting them. Our aim is to protect the good microbes and replace pathogenic organisms by our products containing prebiotics, probiotics/ postbiotics and selected natural extracts. These products are available in various skin care products formats like gel, cream, lotion, serum and balms.

SLEEPY OWL COFFEE PVT LTD

Contact	**:**	Mr. ARMAN SOOD
Designation	**:**	Co- Founder
E-mail	**:**	arman@sleepyowl.co
Website	**:**	https://sleepyowl.co/
Sector	**:**	D2C
Address	**:**	74, Link Road, Lajpat Nagar III, Delhi, Delhi, India 110024

Profile:

Sleepy Owl Coffee Private Limited is a leading Indian coffee company that has redefined the coffee-drinking experience by offering premium, easy-to-brew, and freshly roasted coffee products. Founded in 2017 by Arman Sood, Ashwajeet Singh, and Ajai Thandi, the company was created with the vision of bringing café-style coffee experiences to homes. The founders, frustrated with the lack of quality coffee options for home consumption, aimed to introduce products that offered convenience without compromising on taste and freshness. This led to the launch of cold brew coffee packs, which became the brand's flagship product. Unlike traditional hot-brewed coffee, cold brew involves steeping coffee grounds in cold water for 12-24 hours, resulting in a smoother, less acidic beverage with rich flavors.

SOLVISER INDIA PRIVATE LIMITED

Contact	:	Mr. B N Mishra
Designation	:	Founder
E-mail	:	bnmishra@solviser.com
Website	:	https://www.solviser.com
Sector	:	D2C
Address	:	29, Srikrishna Complex, Nani-Chirai Kachchh, Gandhidham , Gujarat , India 370201

Profile:

Solviser is a revolutionary AI-driven platform designed to eliminate financial risks for MSMEs, suppliers, and B2B businesses by ensuring secure transactions, reducing payment delays, and preventing fraud. The Problem: MSMEs are the backbone of India's economy, contributing 30%+ to GDP and 45%+ to exports, yet they struggle with: ✔ Delayed payments – Over ₹10.7 lakh crore is locked in unpaid dues. ✔ Fraudulent buyers – No credible system exists to assess buyer payment behavior. ✔ Limited access to finance – Banks hesitate to lend due to high default risks. ✔ Complex legal recovery – Lengthy and expensive dispute resolution processes. The Solution: Solviser offers AI-powered financial security to empower MSMEs with: AI-Based Risk Analysis – Predicts high-risk buyers based on transaction history.

SUS TECH INNOVATIONS PVT LTD, established in July 2021 and registered with ROC Hyderabad, is a DPIIT-recognized Green & Clean Tech company accredited by BEE as an Energy Service Company (ESCO) and enlisted under the NSIC Government Purchase Scheme. It specializes in cutting-edge electrical energy management solutions integrating advanced sensors, microcontrollers, and cloud analytics to optimize energy usage and enable carbon credit reporting. Tested and certified by ETDC, DOE, and CPRI, its technology complies with IEC 29119 standards and caters to DISCOMs, industries, agriculture, and residential users. SUS TECH has received accolades like the Startup Excellence Award 2023 and participated in events such as G-20, Startup Mahakumbh, and TiE Global Summit.

SUSNOVATION VENTURES PRIVATE LIMITED

Contact	**:**	Ms. Garima Capoor Nanda
Designation	**:**	Director
E-mail	**:**	garima@plantables.store
Website	**:**	https://plantables.store/
Sector	**:**	Climate Tech
Address	**:**	52, Adan Bagh Extension, Dayalbagh, Agra, Uttar Pradesh, India 282005

Profile:

Plantables, a brand of SusNovation Ventures Private Limited is on a mission to accelerate the shift of global consumers towards sustainable choices and help reduce their carbon footprint — by developing, manufacturing, and marketing environmentally responsible products with exceptional design and quality. We work primarily with plantable seed paper—a wood-free, tree-free paper made from upcycled cotton scrap embedded with seeds that grows into plants after use. Along with seed paper, we also use sustainable materials such as recycled and FSC-certified paper, agro-waste-based paper, cork, bamboo, reclaimed wood, and natural fabrics to craft our products.

Website	:	https://swadhaagri.com
Sector	:	AgriTech
Address	:	Vill. Jorkat, PO: Sua, Daltonganj, Jharkhand, India 822102

Profile:

Imagine an industry in India which is 400 Billion USD employing over 80 Million population, contributing to 5% of country's GDP, and still remains unorganised upto 90%. Thats dairy. Globally this market is 1600 Billion USD growing at a CAGR of 15%. Despite such a huge market size and 55 years of White Revolution, over 3/4th of the sector is unorganised. Why? One simple answer, non-availability of a dedicated cow-to-consumer technology solution. Federations and private dairies still rely on manual or semi-manual processes for milk procurement, processing, and distribution, leading to high overheads and lower operational efficiency. This sparked our journey on the tough grounds of Palamu, one of least developed cities of India. We didn’t have a “dairy supply chain manual” to follow to address this gap.

Website	:	https://www.tm2.space/
Sector	:	Defence & Space Tech
Address	:	Plot 32, Magadha Village,, Hyderabad, Telangana, India 500075

Profile:

At TakeMe2Space, we are building in-orbit data centres to fulfil the soaring demand of compute, especially for AI. Space offers both a sustainable and an economic opportunity to support humankind's near-unlimited need for compute. Our approach is to fundamentally lower the cost of building and operating satellites. Our proprietary radiation shielding material with space heritage, for example, allows for terrestrial components to be used in satellites, lowering the cost of in-space compute by an order of magnitude. In 2024, TakeMe2Space successfully launched MOI-TD on ISRO's PSLV C-60 to demonstrate India's first AI lab in space. Through this mission, users successfully uplinked their AI models to process data in orbit and downlinked the results, demonstrating edge computing capabilities of the satellite.

Profile:

AshvaMitra – Revolutionizing Heavy-Duty Trucking with Modular Electric Power The logistics and transportation industry is facing a major challenge: rising diesel costs, operational inefficiencies, and increasing carbon emissions. At AshvaMitra, we are addressing this with a game-changing solution—a modular electric truck system that enables diesel trucks to operate in hybrid or fully electric mode. What We Do AshvaMitra is an attachable electric module equipped with an E-Axle, battery pack, and intelligent powertrain. It seamlessly integrates with existing semi-trucks via a fifth-wheel mechanism, reducing diesel consumption, lowering costs, and making fleet operations more sustainable. Why It Matters Reduces Diesel Dependency – Cut fuel costs while maintaining efficiency.

As a mother to a child with special needs,she understands the daily challenges that can impact self-esteem and happiness of individuals with physical limitations. With 18 years of professional experience in architecture and design, she is uniquely equipped to address these challenges. Without addressing any larger issues, with her design skills and Dr. Kanan Doshi’s technical expertise in the field of Occupational Therapy for 25 years, they joined hands to form The Able Company to address some of these everyday needs which seem mundane but have a powerful impact on our self-esteem At The Able Company, we believe that true independence starts with the right tools.

THE BALANCE STORY

Sector	:	D2C
Address	:	F-1836, Galaxy North Avenue, Greater Noida, Uttar Pradesh, India 201318

Profile:

We are India’s first functional food company, dedicated to transforming everyday essentials into potent, health-boosting foods that help you skip medications and supplements. With a commitment to clean, wholesome ingredients, we are offering a new way for people to take charge of their health, one bite at a time. Our philosophy is simple: modern life often comes with modern health challenges—stress, lack of sleep, energy slumps and a variety of other issues that many people struggle with on a daily basis. But what if we told you that your daily essentials, like food, could be more than just fuel for your body? What if they could also serve as medicine, helping to manage or even eliminate some of these health concerns? That’s where we come in. We believe that nutrition should be part of the solution, not just a basic need.

Profile:

Website- www.jhappi.store Reason for our existence We deeply care about the individuals we support, and we want you to understand the impact of your purchase. By buying our products, you help mainstream these artisans, and by raising awareness, you help prevent their marginalization. Building a Sustainable Organization We aim to create a self-sustaining organization, moving away from charity. NGOs and beneficiaries often rely on charity funds, which can diminish their drive for independence. With many chasing the same limited funds, new ideas and methods often struggle to find financial support. Livelihood initiatives should be designed to be sustainable. Earning a Living Is Empowering Having an income is more than just having money; it's liberating and boosts confidence.

THRAFFORD LIFESCIENCE

Contact	:	Dr. Kadalmani Krishnan
Designation	:	Chief Executive Officer
E-mail	:	kk@thrafford.com
Website	:	https://thrafford.com/
Sector	:	BioTech & HealthTech
Address	:	A-905, Plot No. A-40, Unit No. 5, Sector 62, Noida, Uttar Pradesh, India 201301

Profile:

Thrafford Lifescience is addressing the growing oncology crisis in India, where there are approximately 250,000 cases of leukemia and lymphoma, and 30% of these patients are refractory or relapsed. While CAR-T cell therapy has shown significant promise in treating hematologic cancers, its adoption in India remains low, with fewer than 300 patients treated annually. This limited access is primarily due to challenges around scalability, affordability, and the complex manufacturing process of CAR-T therapies. To overcome these barriers, Thrafford is focusing on the development of allogeneic CAR-T therapy. Unlike autologous CAR-T, which requires harvesting and processing a patient's own T-cells, allogeneic CAR-T therapy utilizes T-cells from healthy, unrelated donors.

THREATSYS TECHNOLOGIES PRIVATE LIMITED

Sector	:	Other
Address	:	MANYATA TECH PARK ROAD, WEWORK REDWOOD HD-27,, 9TH FLOOR, BLOCK D3, Thanisandra Main Road, Bengaluru, Karnataka, India 560045

Profile:

At Vedeeo, we are a team of passionate tech enthusiasts and visionary business leaders who have honed our expertise at Fortune 100 companies and leading unicorn startups. United by a shared mission, we are transforming the online shopping landscape by bridging the gap between the digital and physical worlds — what we call the Phygital Experience. Our journey began with a simple idea: to make online shopping more human. We believe that every purchase should feel as authentic as walking into your favorite store and chatting with a knowledgeable salesperson. That’s why we’ve built an innovative platform that brings real human interactions into the digital shopping space, making every click, conversation, and choice more meaningful. With Vedeeo, you’re not just shopping; you’re engaging.

TWINVERSE TECHNOLOGY PVT LTD

Contact	:	Mr. Modassir Ansari
Designation	:	Co-founder
E-mail	:	info@twinverse.in
Website	:	https://twinverse.in/
Sector	:	AI, DeepTech & Cybersecurity
Address	:	Research & Entrepreneurship Park (REP) IIT Bhubaneswar, Bhubaneswar, Odisha, India 752050

Profile:

Twinverse Technology is at the forefront of fashion innovation, bridging the gap between online and in-store shopping. Our signature product, TwinTry™, is the pioneering AI-powered 2D virtual try-on technology tailored to India’s unique fashion landscape. From traditional ethnic wear to trendy Western styles, TwinTry enhances customer experiences by allowing users to explore how garments look and fit, right from their screens. With a commitment to sustainability and inclusivity, we aim to transform fashion retail, boosting engagement, lowering returns, and creating a future where every shopper finds their perfect fit.

TYREPLEX

Contact	:	Mr. Puneet Bhaskar
Designation	:	Co-Founder and CEO
E-mail	:	puneet@tyreplex.com
Website	:	https://www.tyreplex.com/
Sector	:	B2B & Precision Manufacturing
Address	:	5th Floor, AIHP Executive Center, Gurugram, Haryana, India 122001

Profile:

Tyreplex is digitizing the tyre dealers by providing them with their proprietary tech. Tyreplex helps tyre dealers procure tyres of all brand, all tyre categories with 0 MOQs, and get the tyres delivered at their stores within 6 hours. Tyreplex also helps tyre dealers in managing their store inventory, acquiring new customers from online and creating customer bills and CRM. Dealers who work with Tyreplex, employ lower working capital, reduce loss of sales and improve margins.

UDYAMWELL

Contact	:	Mr. Sachin Korla
Designation	:	Sachin Korla
E-mail	:	admin@udyamwell.com
Website	:	https://udyamwell.com/
Sector	:	AgriTech
Address	:	Udyamwell, daroh kasba, Kangra, Himachal Pradesh, India 176092

Profile:

UdyamWell is a ONDC enabled platform that empowers rural and small-scale producers—artisans, farmers, and women-led enterprises—by enabling them to become ecommerce-ready . Through our ONDC-integrated seller platform, we provide end-to-end support and handholding.

UDYAMWELL PRIVATE LIMITED

Contact	:	Mr. Sachin Korla
Designation	:	CEO
E-mail	:	sachin@udyamwell.com
Website	:	https://udyamwell.com/
Sector	:	AgriTech
Address	:	Udyamwell, VPO Daroh, Teh. Palampur, Near Simsa Mata temple daroh, Kangra, Himachal Pradesh, India 176092

Profile:

UdyamWell is an ONDC-enabled rural commerce platform that supports rural entrepreneurs, self-help groups (SHGs), and farmer-producer organizations (FPOs) by providing digital tools, market access, and training. Based in Himachal Pradesh, it follows a three-step approach: aspiration mapping, capacity building, and market access to help rural businesses grow. It operates on a success-based revenue model, charging a 5% fee on seller transactions, and also offers subscription-based services for capacity building. UdyamWell collaborates with government bodies, corporates, and ecosystem partners to create sustainable livelihoods and bridge the rural-urban market gap.

Unneu directly connects individuals to buy and sell sarees with each other. Key features: One-Stop Destination: Unneu positions itself as the primary destination for all saree-related needs, connecting buyers with a wide range of options from individual closets.

UNOJOBS

Contact	:	Mr. Karan Mirchandani`
Designation	:	Founder
E-mail	:	km@unojobs.com
Website	:	https://www.unojobs.com
Sector	:	AI, DeepTech & Cybersecurity
Address	:	UG 7 - Suneja Tower, New Delhi, Delhi, India 110058

Profile:

Recruitment is broken. Hiring takes 45-60 days, forcing recruiters to juggle multiple tools—WhatsApp, email, Excel, Zoom, ATS—creating inefficiencies from the start. Poor job matching, slow shortlisting, and first-round interviews that drag on for weeks make hiring frustrating and outdated. Our AI-powered recruitment platform cuts hiring time to 7-15 days by automating screening, shortlisting, and interviews. AI agents conduct interviews autonomously, delivering summarised video interview reports and insights so recruiters can focus on high-intent candidates. Why now? GenZ and Millennials are set to make up 60% of the workforce in the next seven years, shaping the future of employment and the generation that wants fast jobs.

UNRIDDLE TECHNOLOGIES PRIVATE LIMITED - ANVESANA TBI

Profile:

V2R Autoinfinite Pvt. Ltd. is a pioneering force in the automotive industry, committed to redefining vehicle care, optimizing business operations, and championing sustainability on a global scale. With our dynamic approach to the auto ecosystem, we are setting new benchmarks in technology-driven efficiency, customer satisfaction, and eco-friendly practices. Our company operates through various verticals, including VecRep — a vehicle service booking platform, VR Garage — an advanced SaaS solution for garages and auto businesses, and Fusionverse Autos — our sustainable, waterless car care brand. Through these innovative solutions, we empower auto businesses, provide seamless experiences for vehicle owners, and reduce the environmental impact of traditional automotive care practices.

VAIDYARX PRIVATE LIMITED

Contact	:	Mr. TARUN GUPTA
Designation	:	Founder and CEO
E-mail	:	tarun@vaidyarx.com
Website	:	https://vaidyarx.com/
Sector	:	Other
Address	:	Noida Sector- 37, Arun Vihar, Noida, Uttar Pradesh, India 201301

Profile:

VaidyaRx is an innovative digital healthcare platform dedicated to enhancing patient well-being through comprehensive post-discharge support. We address a critical gap in the current healthcare system, where post-hospitalization follow-up care often remains fragmented and inadequate. This lack of structured support can lead to medication non-adherence, adverse drug reactions, and unnecessary hospital readmissions. VaidyaRx tackles this challenge by leveraging a suite of innovative features accessible through our user-friendly mobile application. Our platform empowers patients, physicians, diagnostics and pharmacists to collaborate seamlessly, fostering a holistic and patient-centric approach to post- discharge care.

Profile:

Wound healing is an essential physiological process that could be improved by employing natural remedies with medicinal value. It is an herbal wound healing spray developed from plant-based substances having antimicrobial, anti-inflammatory, and regenerative qualities and there is no other formulation product available in market as our product. These herbal extracts aid in microbial infection reduction, inflammation soothing, collagen synthesis stimulation, and tissue regeneration acceleration. The spray form provides easy application, fast absorption, and good protection for the wound. Initial assessments indicate that the herbal spray greatly enhances wound healing by increasing cell growth and minimizing oxidative stress.

Website	:	https://homehygiene.co/
Sector	:	D2C
Address	:	T7-1001, Vipul Greens, Sector 48,, Gurugram, Haryana, India 122018

Profile:

Hygiene is two-thirds of health. Nah, we believe that hygiene is the first and only law to stay healthy. At Home & Hygiene, we firmly believe that hygiene is not just a component of good health but the cornerstone of it. We recognize that our homes and bodies are the very essences of our existence, and maintaining their cleanliness is vital. Unfortunately, in today's world, many home cleaning products are filled with harsh chemicals and toxins, masquerading as pleasant fragrances. While they may temporarily freshen up our homes, they do more harm than good. As a conscious brand, we are committed to offering toxin-free options that prioritize the well-being of you, your home, and our planet.

Sector	:	Other
Address	:	FL-101, 1ST FLOOR, DHARMA ARCADE,, Bhubaneswar, Odisha, India 754005

Profile:

We work towards the development of energy-efficient motors and systems. We developed an indigenous motor technology that is energy-efficient and cost-effective and can be widely implemented across industries and households. We call it BI-polar Switching Induction motors, or in short BI-polar induction motors. The USP of this technology is that motors manufactured using this technology consume 50 to 60 percent less energy as compared to traditional Induction motors. Another prominent feature of this technology is that. It can be integrated with existing Induction motors to reduce their wattage consumption by 40 to 50 Percent with the same efficiency and output, just by installing a few of its components on them. That costs around a few hundred, and your old motor gets upgraded to energy energy-efficient one.

By harnessing the power of molecular diagnostics, the startup seeks to support veterinarians in making informed decisions and delivering better health outcomes for animals.

VEWMET DIGITAL LIFE PRIVATE LIMITED

Contact	:	Mr. Bharath Naik
Designation	:	Co-Founder
E-mail	:	bharath.vadithya@gmail.com
Website	:	https://inkk.ai
Sector	:	Other
Address	:	C/o Archana Pandey, Near Zila Sehkari Bank, Avantika Nagar, Gajraula, Uttar Pradesh, India 244235

Profile:

inkk.ai is a real-time collaborative word editor built for professionals who write as part of their daily work—articles, reports, research papers, and more. Today’s writers frequently switch between multiple LLMs—such as ChatGPT, Claude, DeepSeek, and LLaMA—copying and pasting results, managing fragmented workflows, and facing constant friction when collaborating or scaling their writing process. Most LLM platforms don't offer a usable editor at all—DeepSeek, for example, lacks one entirely. Others, like ChatGPT’s Canvas, offer basic editing interfaces but fall short on core capabilities: limited document length, poor support for long-form writing (like full Wikipedia-style articles), and no way to integrate multiple models in the same environment.

VI-HAB SOLUTION PVT LTD

E-mail	:	vaibhav@vidfin.com
Website	:	https://vidfin.com/
Sector	:	FinTech
Address	:	F-652, 3rd Floor, Palam Extension, Sector-7, Dwarka, New Delhi, Delhi, India 110075

Profile:

The Problem? Retail investors are facing significant challenges when it comes to stock market investing. According to a SEBI study, 70% of intraday traders and 93% of F&O traders incur losses, with a large portion of these traders being under 30 years old. Despite this, many are drawn to high-risk trading due to the lack of accessible, affordable, and easy-to-understand investment resources. Current solutions are expensive, complex, and unregulated, pushing people into risky investments. The Product VIDFIN is India's first video-based finance platform, offering expert-driven stock recommendations, finance courses, IPO analysis, and business insights—all delivered in easy-to-consume video format. Available in both Hindi and English, Vidfin is accessible via a mobile app, making learning and investing easy and flexible.

E-mail	:	vikasjha1204@gmail.com
Website	:	https://www.spurtiexpress.com
Sector	:	AI, DeepTech & Cybersecurity
Address	:	RAJWADA BUILDING NUMBER 28/12, INDRAYANINAGAR, BHOSARI, Pune, Maharashtra, India 411026

Profile:

Railway platforms present significant safety challenges for pedestrians and passengers, especially with fast-moving trains. Traditional warning systems often fail to adequately alert individuals in a timely manner. our innovative algorithms will analyze historical train patterns, dynamically optimizing lighting signals based on real-time data. The entire system operates in a feedback loop, continuously monitoring the environment and adjusting the lighting according to the train's behavior and passenger safety needs. This adaptability is crucial, as the system allows for remote monitoring and control, enabling safety personnel to oversee operations and intervene effectively in response to varying conditions.

Villgro, Indias pioneering social enterprise incubator, was founded in 2001 under the aegis of the National Innovation Foundation Government of India. Its mission is to generate large-scale impact by leveraging innovative solutions to tackle Indias most pressing social and environmental issues. Over the past twenty years, Villgro has provided crucial support to innovation-driven social enterprises through incubation services, market access, and financing, helping them scale their operations. Villgros efforts have impacted 26.7 million lives through 402 enterprises, including 89 women-led ventures across India.

VIMAANA AEROSPACE TECHNOLOGIES LLP

Contact	:	Mr. Mridul Jain
Designation	:	Mridul Jain
E-mail	:	mridul.jain@vimaanatech.com
Website	:	https://www.vimaanatech.com/
Sector	:	AgriTech
Address	:	Plot No. 22, Udyog Kendra EXTN-1 Sector Ecotech 3,, Greater Noida, Uttar Pradesh, India 201308

Profile:

At Vimaana, we develop advanced agricultural drones to enhance farming efficiency and productivity. Our drones are tailored for essential tasks like spraying, crop health monitoring, seed spreading, and even afforestation, offering tangible benefits to farmers and agribusinesses. As a DPIIT, MSME, and StartinUP recognized startup, we’re supported by both IIM Kashipur and IIT Mandi. Our vision is to establish Drone Seva Kendras in collaboration with agri-businesses, initially offering precision spray services and gradually expanding into seed spreading, crop health monitoring, and beyond. Unlike many companies focused solely on short-term gains through mass government procurements, our approach is different—we are committed to ensuring maximum utilization and efficiency of drones rather than just selling them.

Profile:

Vastuvit™ is a web-based Enterprise Resource Planning (ERP) software platform designed specifically for architectural firms. It's not a general-purpose ERP; it's a specialized solution built to address the unique challenges and workflows of architectural design, project management, and financial administration. The core of the product is its ability to streamline drawing costing, track project status in real-time, and manage all aspects of an architectural practice from a single, integrated platform. Key Product Features & Capabilities: Architectural Project Management: This is the heart of the system. It allows architects to: Plan projects comprehensively. Assign tasks to team members. Set and track deadlines. Monitor project progress in real-time. Manage resources effectively.

WALKZERO

Contact	**:**	Mr. Stephen Sebastian
Designation	**:**	CEO
E-mail	**:**	stephen@walkzero.com
Website	**:**	https://walkzero.com/
Sector	**:**	AI, DeepTech & Cybersecurity
Address	**:**	7th Street, Nehru Colony, Chennai, Tamil Nadu, India 600114

Profile:

Walkzero, is developing an AI-driven Human Resource Management System (HRMS) to help small and medium-sized enterprises (SMEs) streamline their HR processes, enhance employee engagement, and ensure compliance with labor regulations. Our platform offers features such as employee self-service, leave and attendance management, geo-tracking, payroll processing, and HR analytics, all integrated into a unified system. We compete in the rapidly expanding HR technology market, which was valued at approximately $22.89 billion in 2020 and is projected to reach $35.68 billion by 2028. We are similar to other HRMS providers but differentiate ourselves by offering an intuitive user interface tailored to the Indian market and advanced features like geo-tracking and capacity-based geo-fencing to optimize workforce management.

WANI FARMING TOOLS INDUSTRY

Contact	**:**	Mr. Refaz Ahmad Wani

Sector	**:**	AgriTech
Address	**:**	Wandevelgam Soyan-192202 Kokernag, Anantnag, Jammu And Kashmir, India 192202

Profile:

The traditional tools used for hoeing, weeding and digging purposes are the Spade and Hoe. Both are equally important for a farmer. We developed a farming tool for this purpose and named it as “Spade and Hoe” as it is a 2 in 1 farming tool that can be used both as spade and hoe. All we need to do is to change the sharp edged tool and align it to the handle according to the purpose we are to use it for. Using the same tool reduces the cost as well. It saves the farmer’s cost of buying the spade and hoe by 50%. Taking it in use also makes carriage easier as we need to carry only a single tool for different purposes. Explain USP (Unique Selling Proposition) of your product/service? Please focus on “benefits” rather than “features” of the technology.

WAREWE CONSULTANCY PRIVATE LIMITED

YIELD PRO EARTH PRIVATE LIMITED

Contact	:	Mr. Ram Mehta
Designation	:	Ram Mehta
E-mail	:	yeildproearth@gmail.com
Website	:	https://www.shreeramagriplast.com
Sector	:	AgriTech
Address	:	1st Floor, GIDC Industrial Estate,, Vadodara, Gujarat, India 391243

Profile:

Business Description for Yield Pro Earth Right now, India has many small and marginalized farmers. Due to a shortage of funds and a lack of necessary irrigation facilities, farmers are still using the age-old trench techniques. Which in turn uses up a lot of electricity. Thus resulting in a huge waste of water and electricity. And so the Government has to give both water and electricity subsidies so that the farmers can do farming at a lower cost. This resulted in a huge loss to the government, which was the tune of crores of rupees. In the age of modernization, farmers in our country cannot have a definite count on their yield and can barely meet their own family's needs.

YOLOGRAM STYLE PVT LTD

Contact	:	Mr. Aditya Mani
Designation	:	Aditya Mani
E-mail	:	aditya@yologram.com
Website	:	https://www.yologram.com/
Sector	:	Gaming & Sports
Address	:	B 26 Greater Kailash I, New Delhi, Delhi, India 110048

Profile:

YOLOGRAM is an avatar fashion app where you style your playable avatar with branded fashion & share immersive stories. We gamify e-commerce & social media engagement. One of the biggest challenges of online shopping is visualizing the look of a particular garment on one’s likeness and skin tone and also visualizing how garments pair with each other (mix and match). Users can see how clothes drape with movement, eliminating the guesswork and leading to more confident purchases on look and style. YOLOGRAM tackles this head-on with its combination of hyper-realistic 3D clothing and personalized avatars. This translates into quicker decisions and cost savings for consumers as they can cycle through various combinations swiftly with a swipe of a finger.

Profile:

Zangoh: Transforming Workflows with AI Agents Zangoh is an AI startup on a mission to replace software chaos with digital workers—AI agents that tackle entire workflows, not just chat. Founded by Shrey Sharma (IIT Kharagpur alumnus, ex-Pinterest AI engineer, and patent holder), Zangoh delivers autonomous AI solutions that handle real business tasks end to end. Traditional software tools often burden enterprises with repetitive data entry and complex integrations. Our vision is simple: “No More Software Overload, Just Real Work Done.” We create digital workers—capable of learning from your data, connecting to CRMs, ERPs, or external APIs, and continuously improving. The result? 80% faster processes, 30% lower costs, and fewer human escalations.
